## OUR STORY

Founded in 2003, BL is an international manufacturer and a distributor of products such as professional eyelash extensions, application tools, after-care, make-up products, and so on. Through years of hard work, BL has grown to be one of the most beloved eyelash extension brands in the world reaching out to over 1,300 business partners in 77 countries.

Our mission has always been to provide the highest quality and most innovative eyelash extension products in the world.

At BL, we believe it is our duty to provide the safe products and the education that helps every lash artists unlock the highest potential in themselves.

In recent years, with the unique advantage of BL's headquarter located in South Korea- the global epicenter of latest beauty trends, we have further expanded our product range to lash-care, skincare, and make-up product.

With this expansion, we hope to bring more beauty and self-confidence into people's lives.

We are always committed to making each customers satisfied with our brand by providing an exceptional experience through great products, service, and price.

Join our wish to create more beauties in the world.  
**Let's achieve great things together.**

Sincerely,  
**Team BL**

# ABOUT BL LASHES

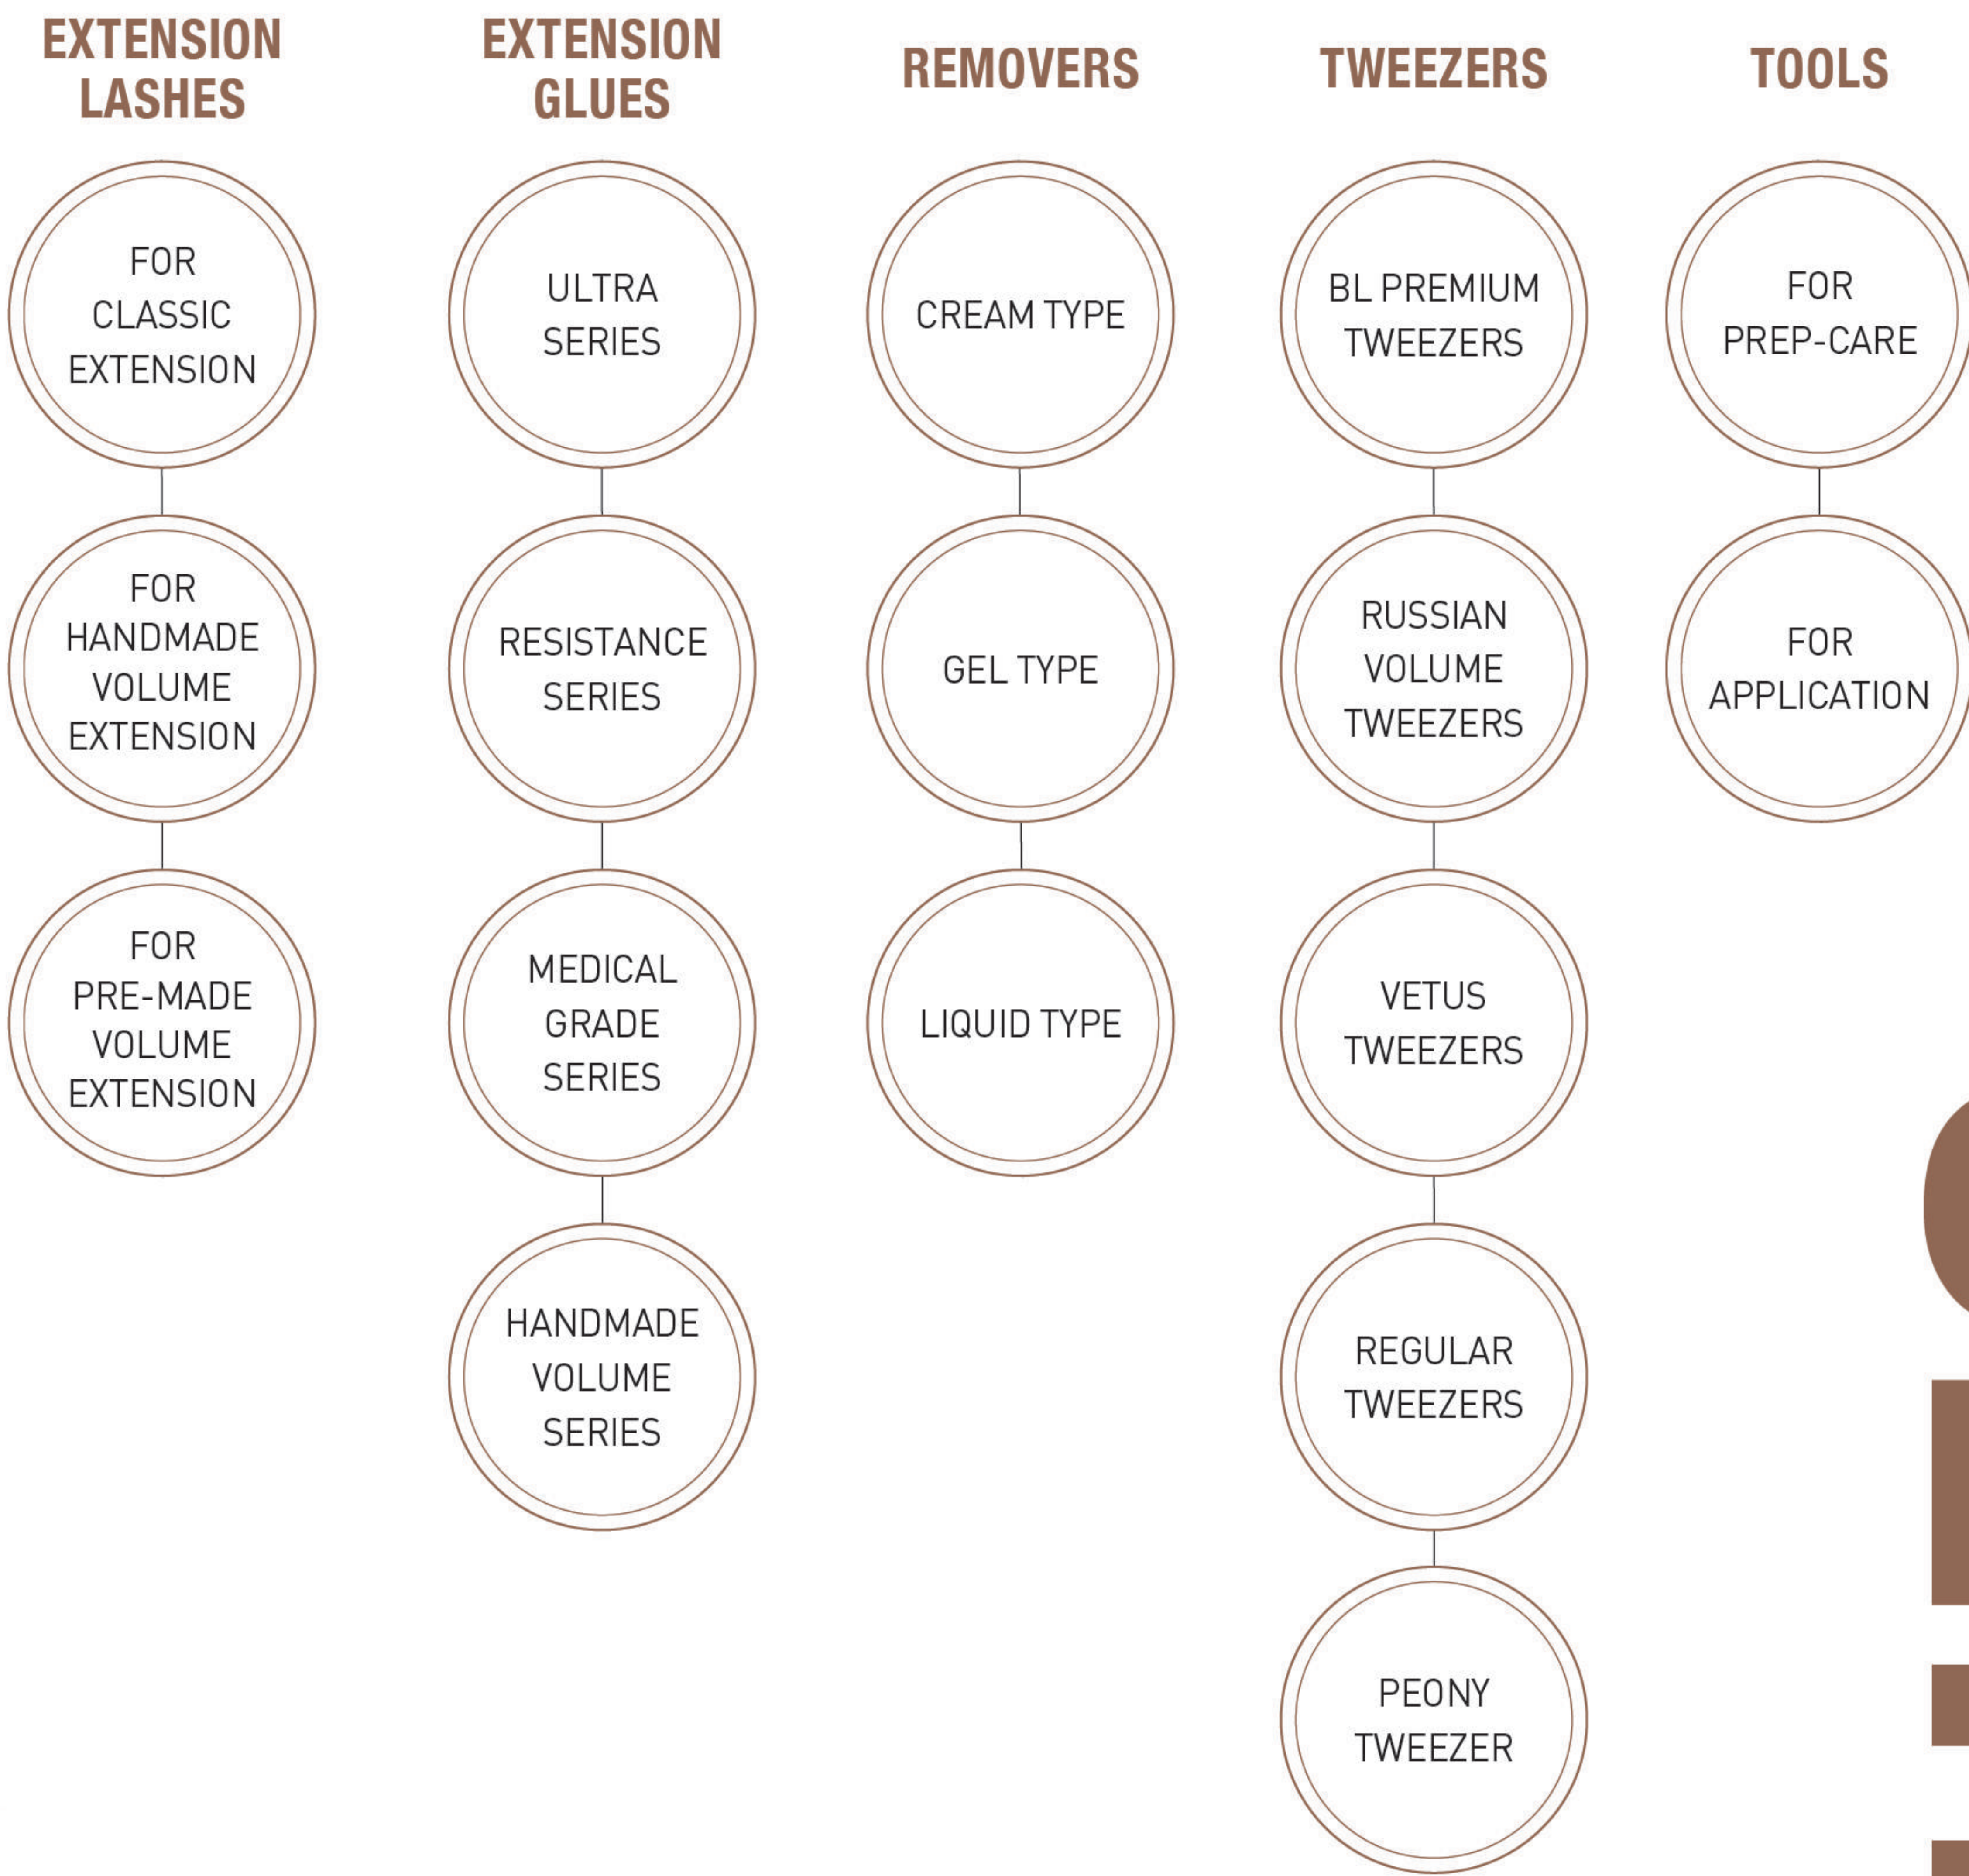

Beauty

# LASHES

BL  
LASHES

QUALITY FIRST

# LASHES

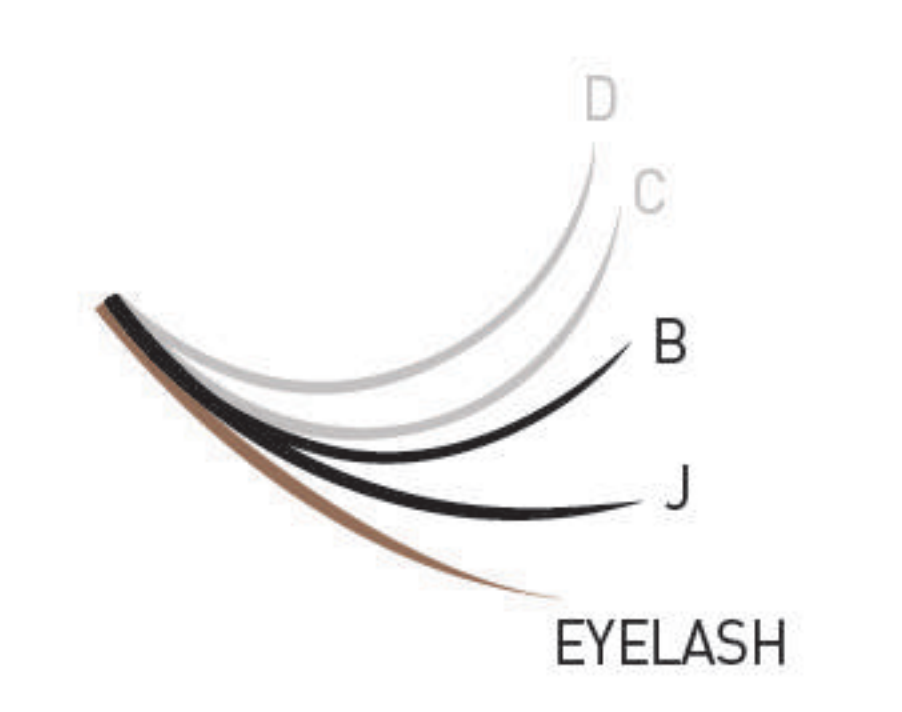

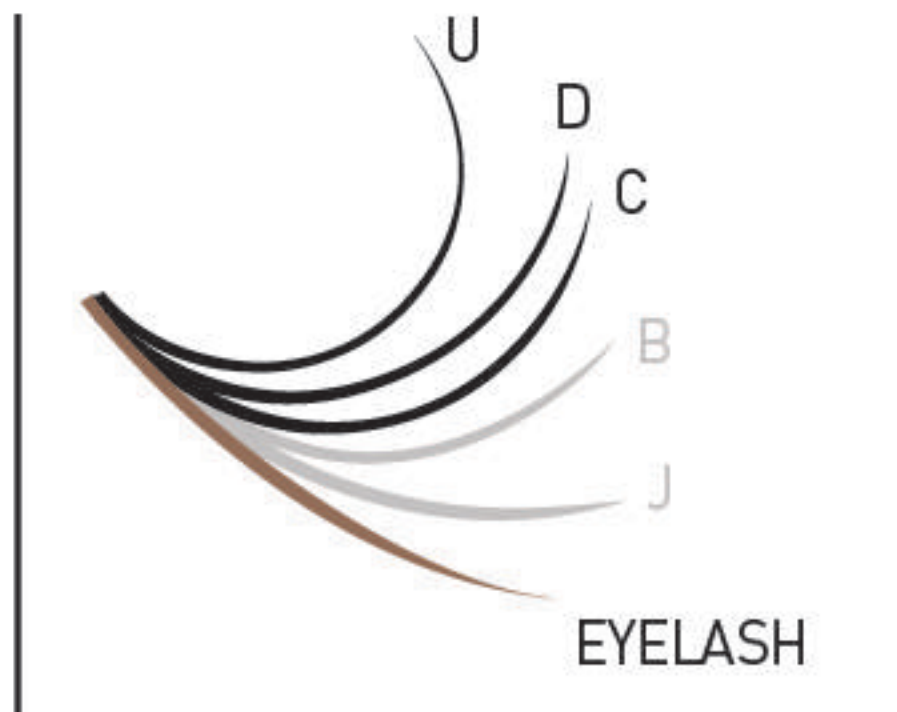

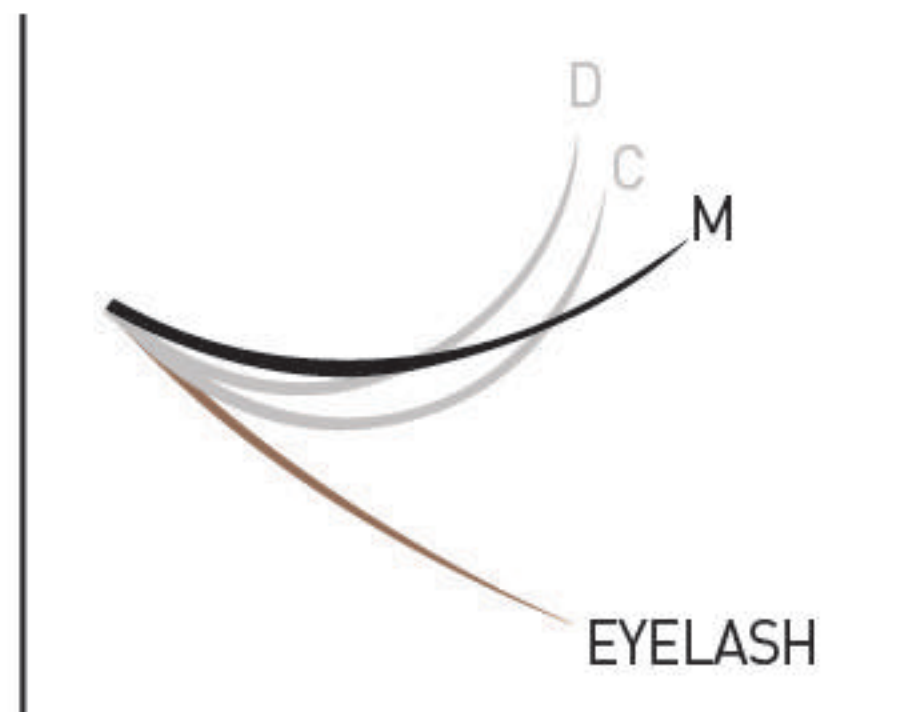

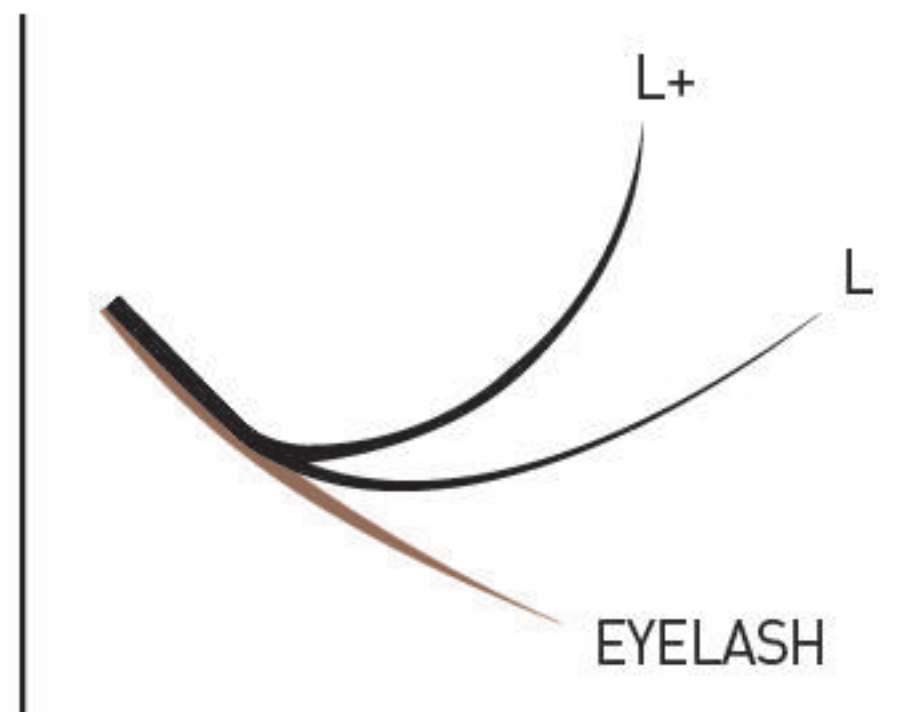

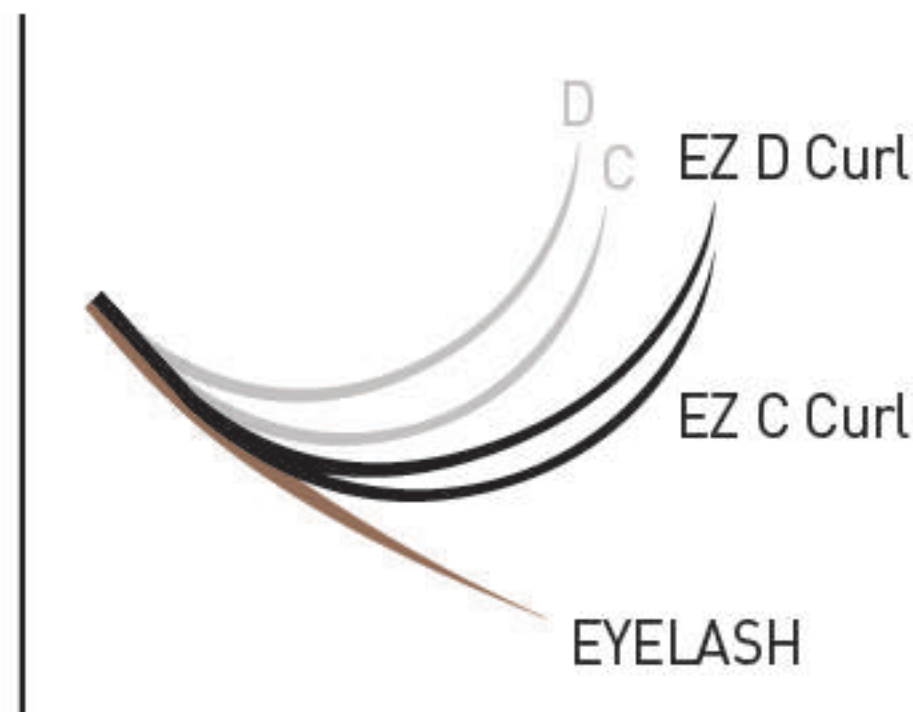

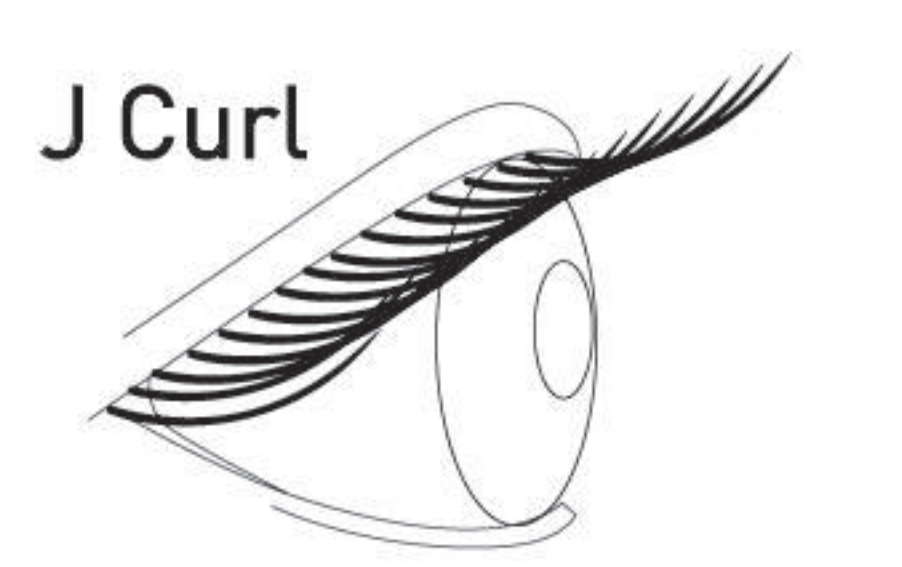

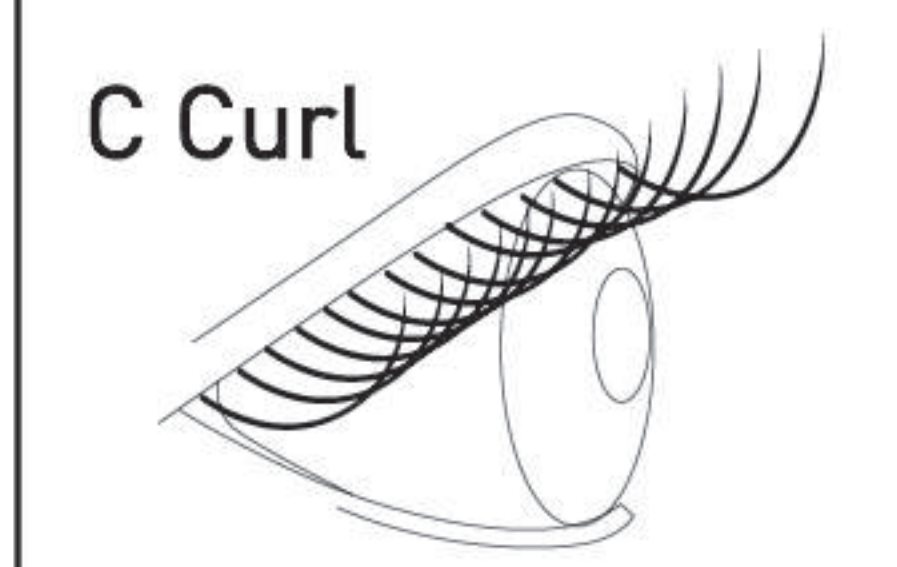

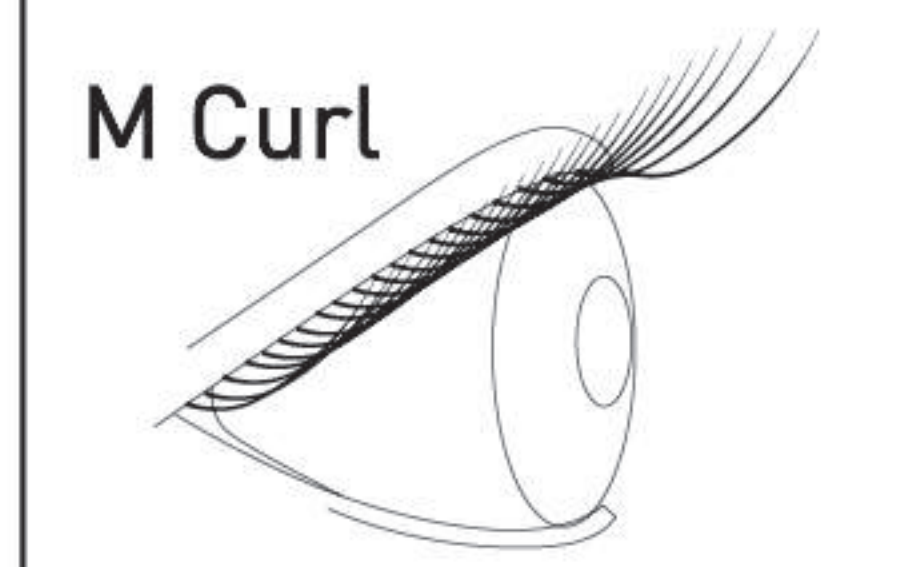

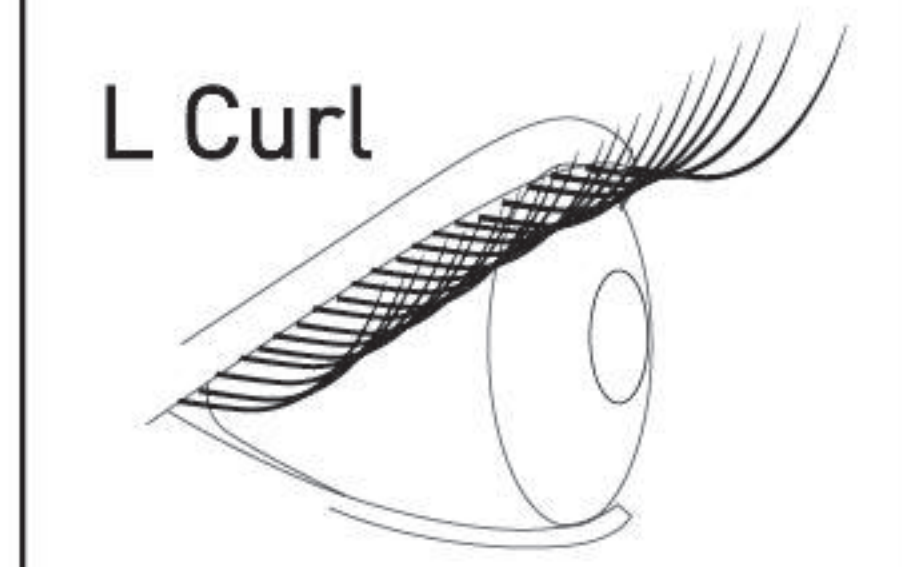

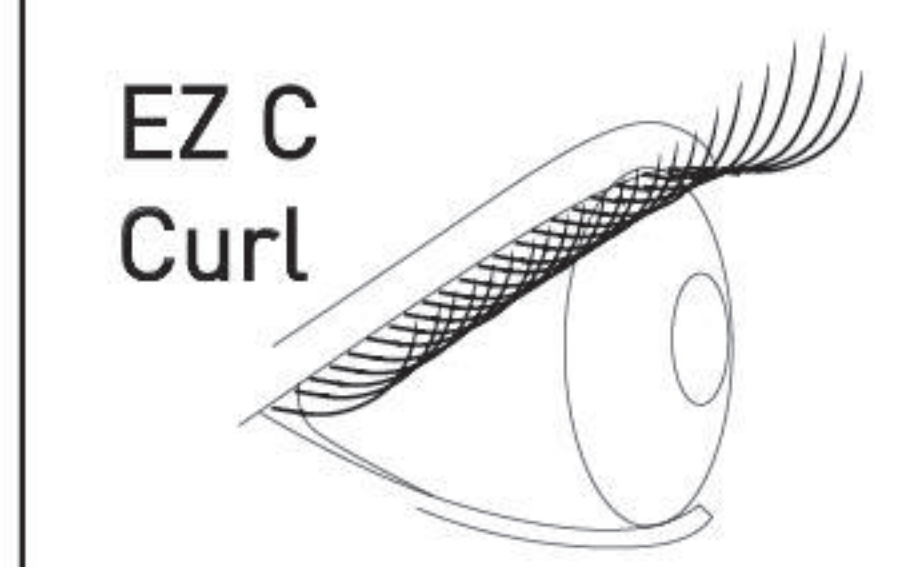

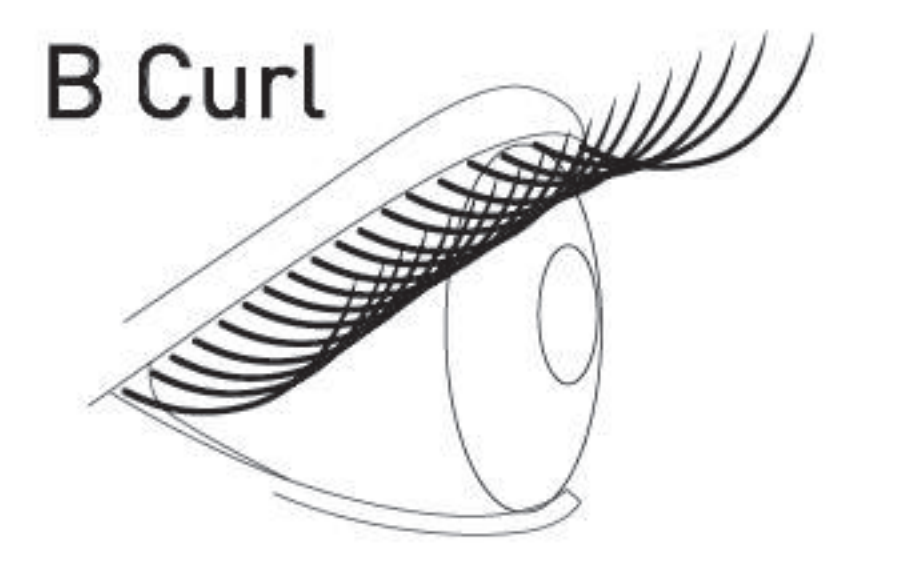

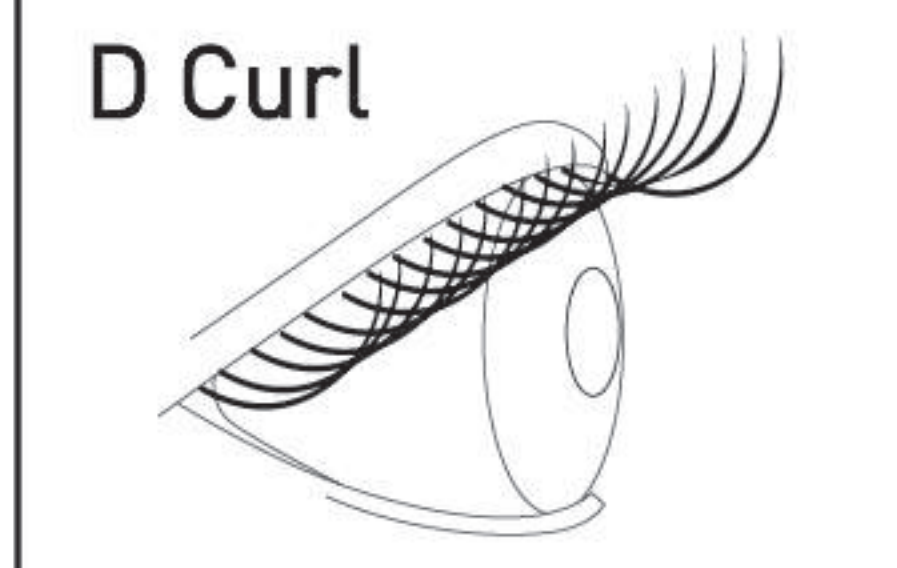

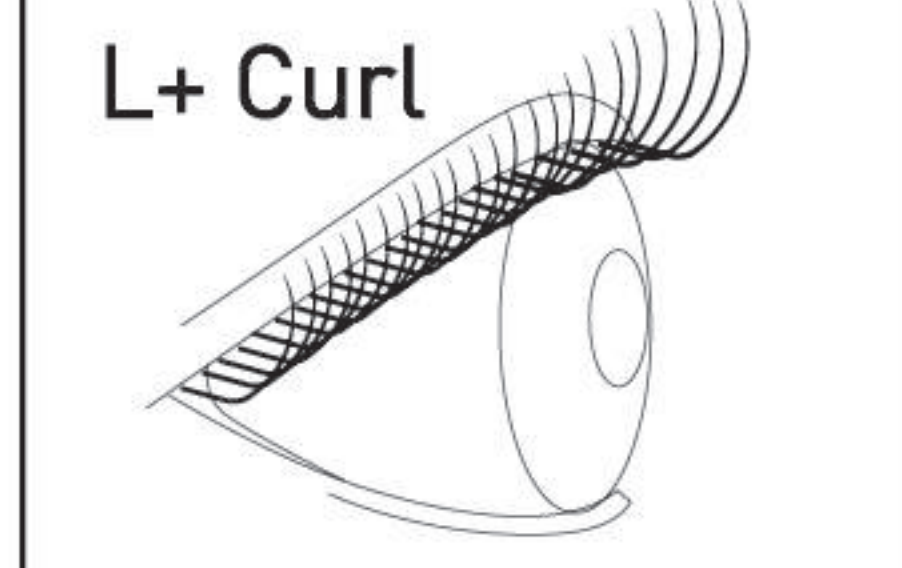

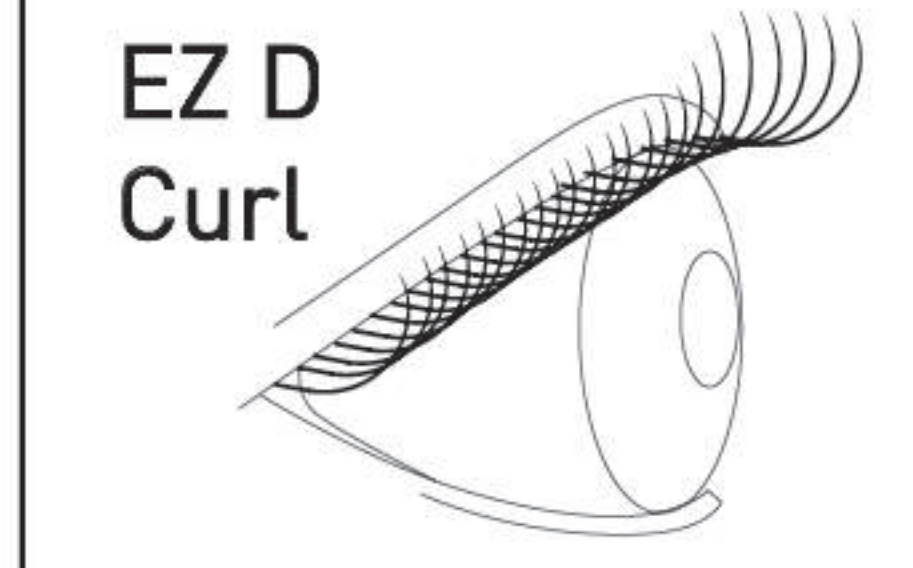

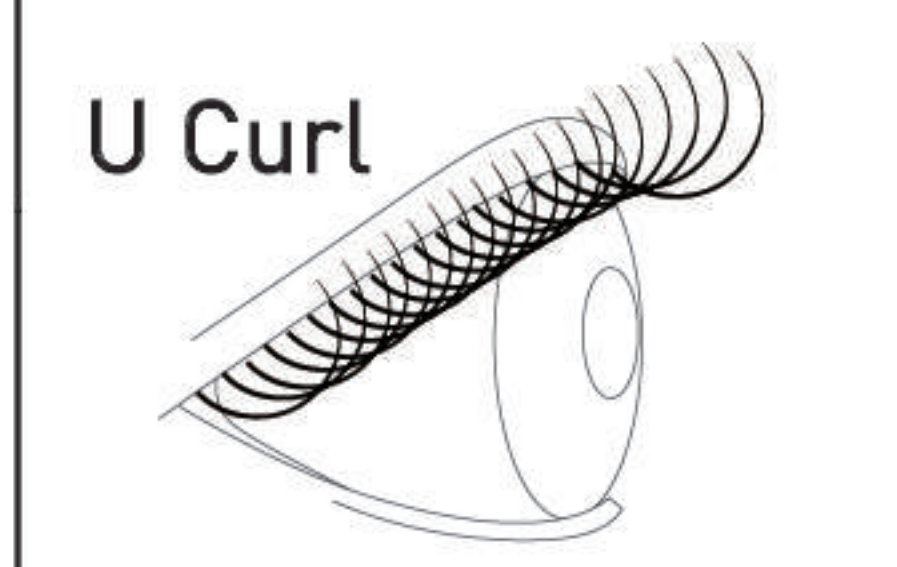

All of our lashes are handmade ensuring quality and consistency. We use the best quality PBT fiber made in Korea to make sure that our lashes are soft, lush, and flexible.

Every single extension lash we offer is inspected to have consistency in color, curl, and length. We always conduct the product test to ensure the highest quality as well as continuing to expand our range of products in order to be the most innovative in the industry.

## Types of BL Extension Lashes

For Classic Extension		For Handmade Volume Extension		For Pre-made Volume Extension	
Natural Lash	Pg.13	Mink Lash the Finest	Pg.27	Y Lash	Pg.31
Superflat Lash	Pg.15	Easy Fanning Lash	Pg.29	W Lash	Pg.31

## Curls

				
<b>SUBTLE</b>	<b>DRAMATIC</b>	<b>STRAIGHT-UP</b>	<b>LIFT UPWARD</b>	<b>BETTER BONDING</b>
B, J Curl	C, D, U Curl	M Curl	L, L+ Curl	EZ C Curl, EZ D Curl
<b>J Curl</b>  Mimicking the most natural appearance of natural lashes, these straighter extensions have light curve at the tip.	<b>C Curl</b>  The most popular curl that gives a bright, wide-eye effect without looking too heavy.	<b>M Curl</b>  M Curl is ideal for clients with monolids as it gives a wide-eye effect.	<b>L Curl</b>  Ideal for clients with downward sloping lashes or hooded eyes as it gives a natural-looking lift.	<b>EZ C Curl</b>  With a straight base that allows for a stronger and longer bond, BL's Exclusive EZ Lash C Curl delivers a bright eye effect that lasts long.
<b>B Curl</b>  B Curl, which falls between J and C Curls, is a popular choice for customers who want a natural look.	<b>D Curl</b>  D Curl is often used to create the illusion of bigger eyes, dramatically.		<b>L+ Curl</b>  Also Ideal for clients with downward sloping lashes or hooded eyes as it gives a natural-looking lift. L+ Curl creates more dramatic effect than L Curl.	<b>EZ D Curl</b>  With a straight base that allows for a stronger and longer bond, BL's Exclusive EZ Lash D Curl delivers a dramatic eye effect that lasts long.
	<b>U Curl</b>  The curliest extension type which creates a dramatic doll-like effect.			

# CLASSIC EXTENSIONS

Classic extension is a method of attaching one extension lash to one natural lash at a time. This method is also known as 1 by 1 extension. Classic extension is perfect for clients who want to add more length on their already plentiful natural lashes or for those who are looking for a natural eyelash extension.

## NATURAL LASH (REAL MINK)

Natural Lash stands out in quality. Since Natural mink lash is made of 100% real fur, it is super lightweight and provides a pure shine. It is adaptable to the surrounding temperature and humidity as well.

Thanks to the natural cuticle layers that hold the glue, Natural Lash prevents the glue from forming a droplet at the root of the extension lash and it is suitable for any types of glue regardless of their viscosity.

- + Provides a luxurious shine
- + Lightweight
- + Highly adaptable to surrounding temperature and humidity
- + Suitable for any glues regardless of their viscosity

Curl	Thickness	Length (mm)
J / B / C / D	N / A	8, 9, 10, 11, 12, 13, 14, 15, Mix(8~13)

6 lines. 100% natural mink fur

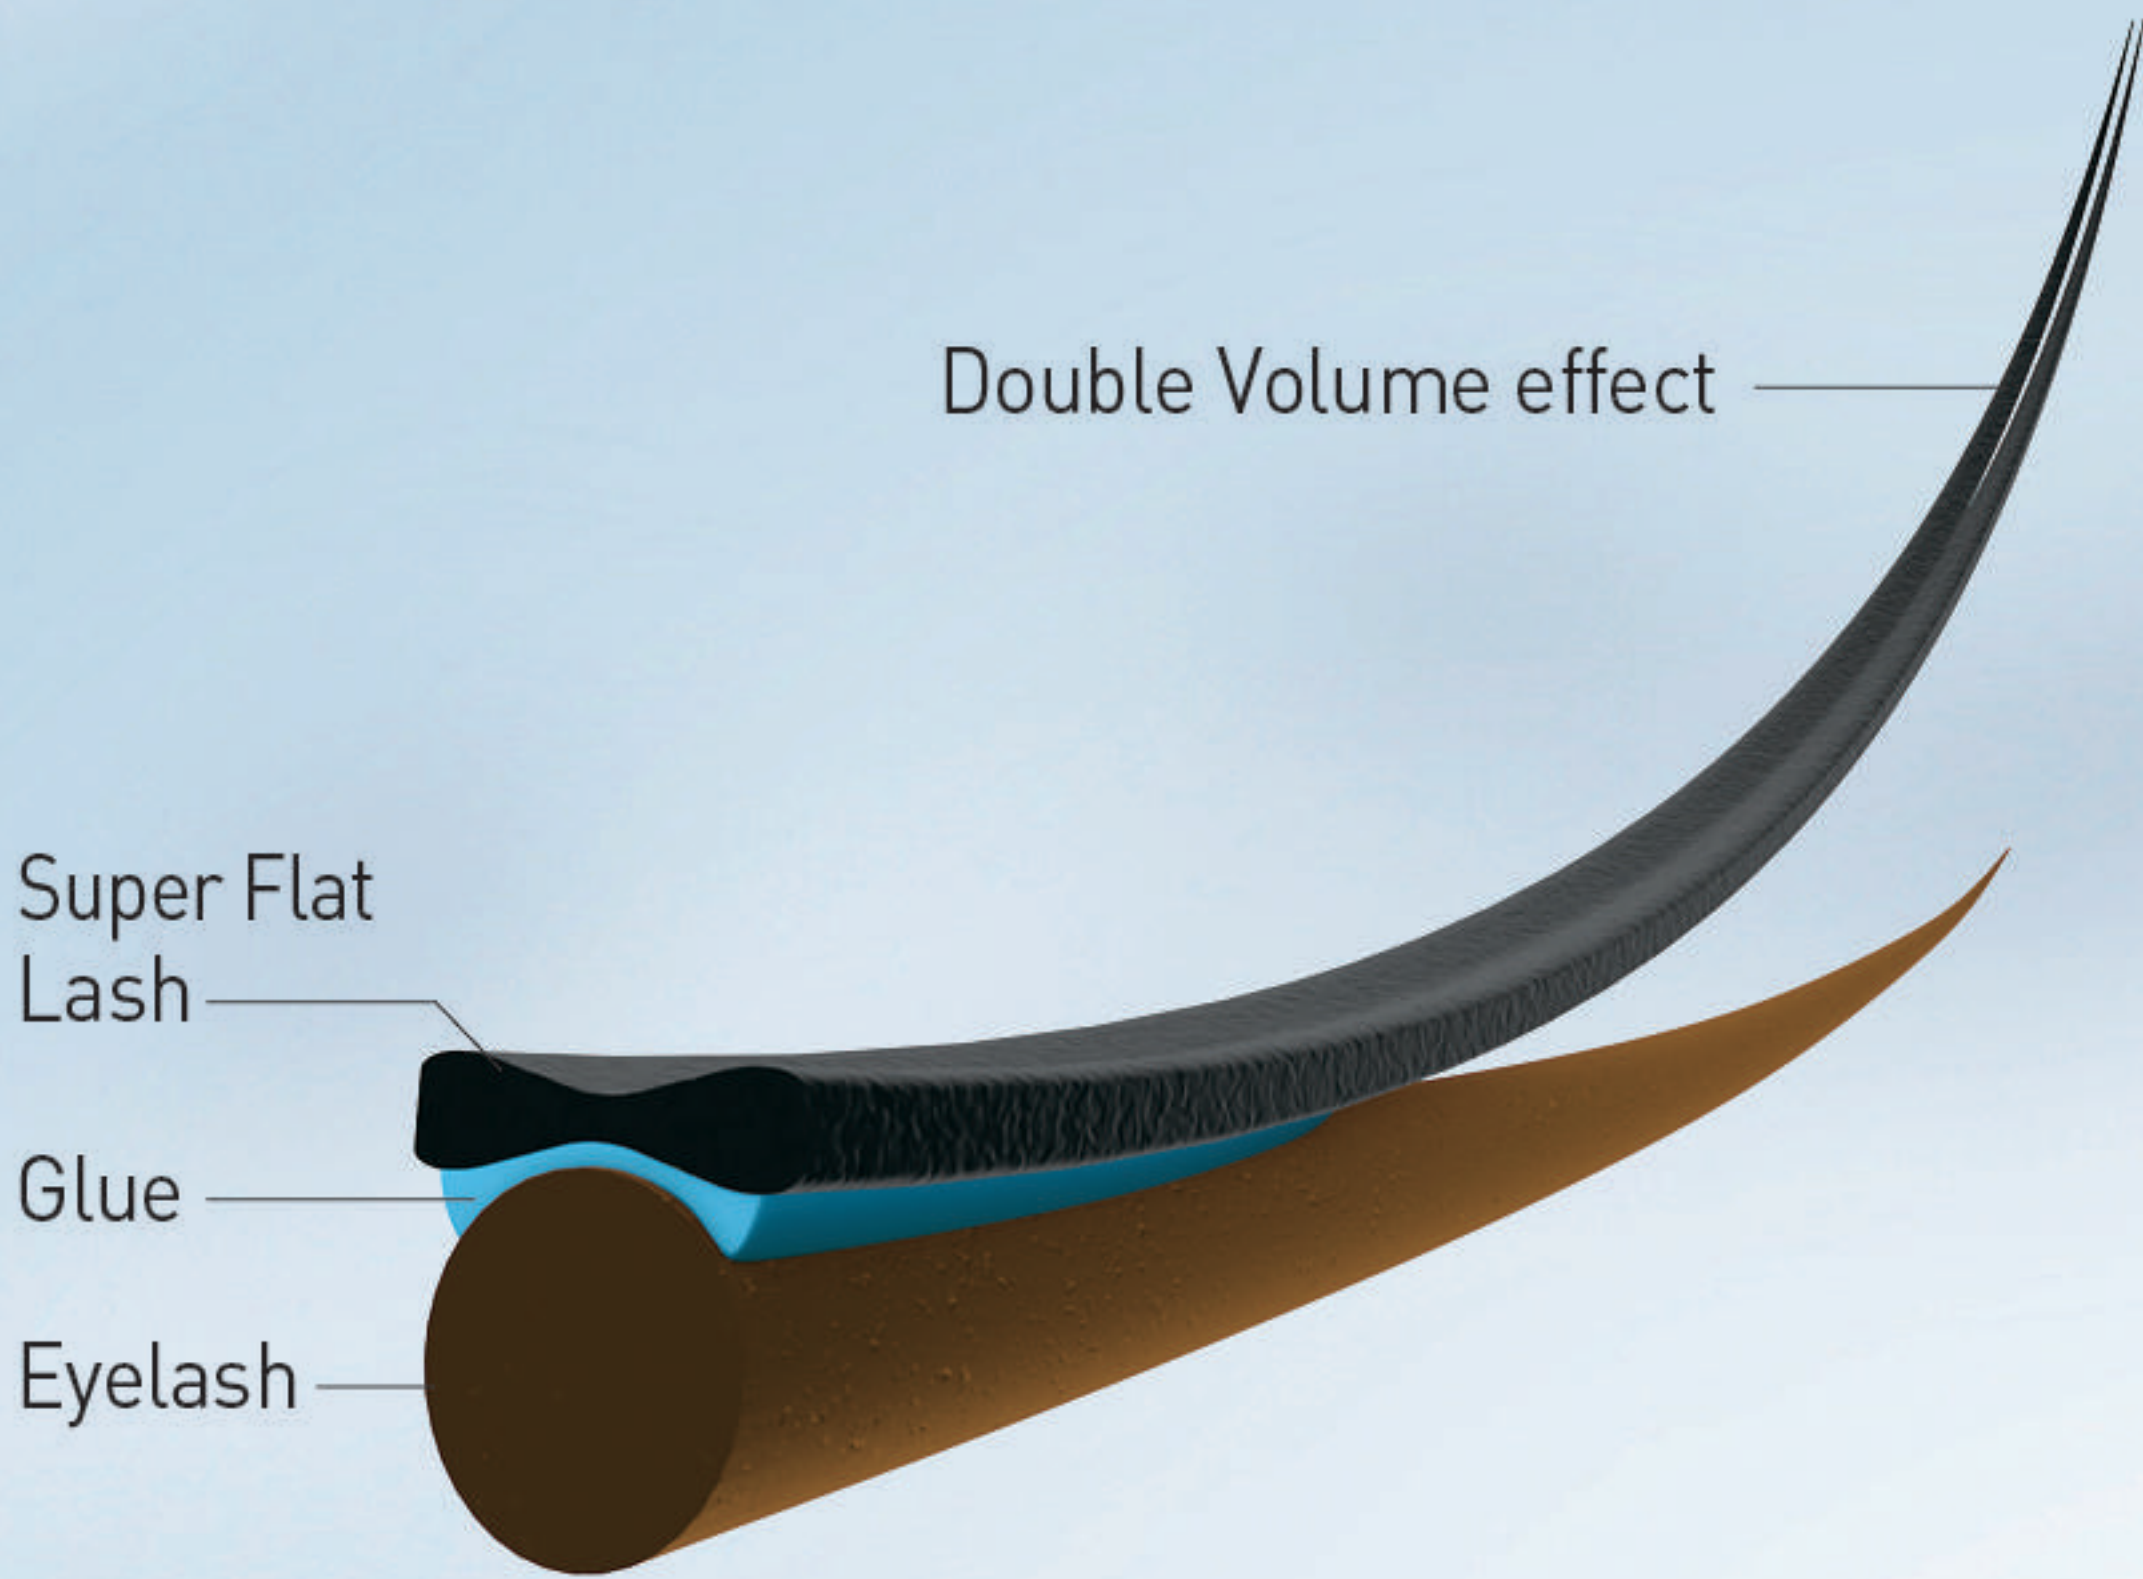

# CLASSIC EXTENSIONS FLAT LASH SERIES

Flat lashes are perfect if you want a fuller looking lashes without adding a weight to natural lashes. These lashes are flattened and this flattened shape makes the lash itself super soft and much lighter than the typical eyelash extension. The concave surface on a Flat lash provides a greater contact area for adhesion fastening which makes the lashes last much longer than normal extension.

	<div><div>0.15mm</div><div>Mink Lash</div><div>Eyelash</div></div>	<div><div>0.07mm</div><div>Flat Lash</div><div>Eyelash</div></div>	<div><div>0.04mm</div><div>Super FLAT</div><div>Eyelash</div></div>

WEIGHT	0.000101215g	60% LESS*	75% LESS*
RETENTION TIME	4 WEEKS	20% LONGER LASTING*	35% LONGER LASTING*

\* In comparsion to Mink Lash

## SUPER FLAT LASH

With the cutting-edge technology of BL Lashes and pressed surface to have superior interlocking flat shapes, Super flat lash is 75% lighter than normal mink lash and has 35% longer retention time. The deeper split of each lash delivers an instant double volume effect.

- + 75% lighter than normal mink lash
- + Double volume effect
- + Satin matte finish

	0.20	8, 9, 10, 11, 12, 13, 14, 15, Mix(8~13)

12 lines. Made of Korean PBT

## FLAT LASH

BL Flat Lashes create a thicker looking lashes with less weight. The wide base gives an impressive eyeliner effect along the lash line by filling and correcting the gaps between natural lashes.

- + Create a thicker lash look with less weight
- + Eyeliner effect
- + High gloss finish

Curl	Thickness	Length (mm)

# CLASSIC EXTENSIONS

## LASER LASH SERIES

Visit here  
to see the difference!

### Our inspiration & breakthrough

The idea of creating indentations on a synthetic lash has emerged during our study of the human hair itself. Inspired by the fact that the scaly and uneven surface of the human hair cuticle naturally allows better adhesion than a smooth surface, we have created the world's first laser processed extension lash eventually.

### Works wonders with any glue

Thanks to the indentations on BL Laser lashes that hold the glue, they prevent glue from forming a glue droplet at the root of the extension lash. BL Laser lashes work wonders with any glue regardless of its viscosity.

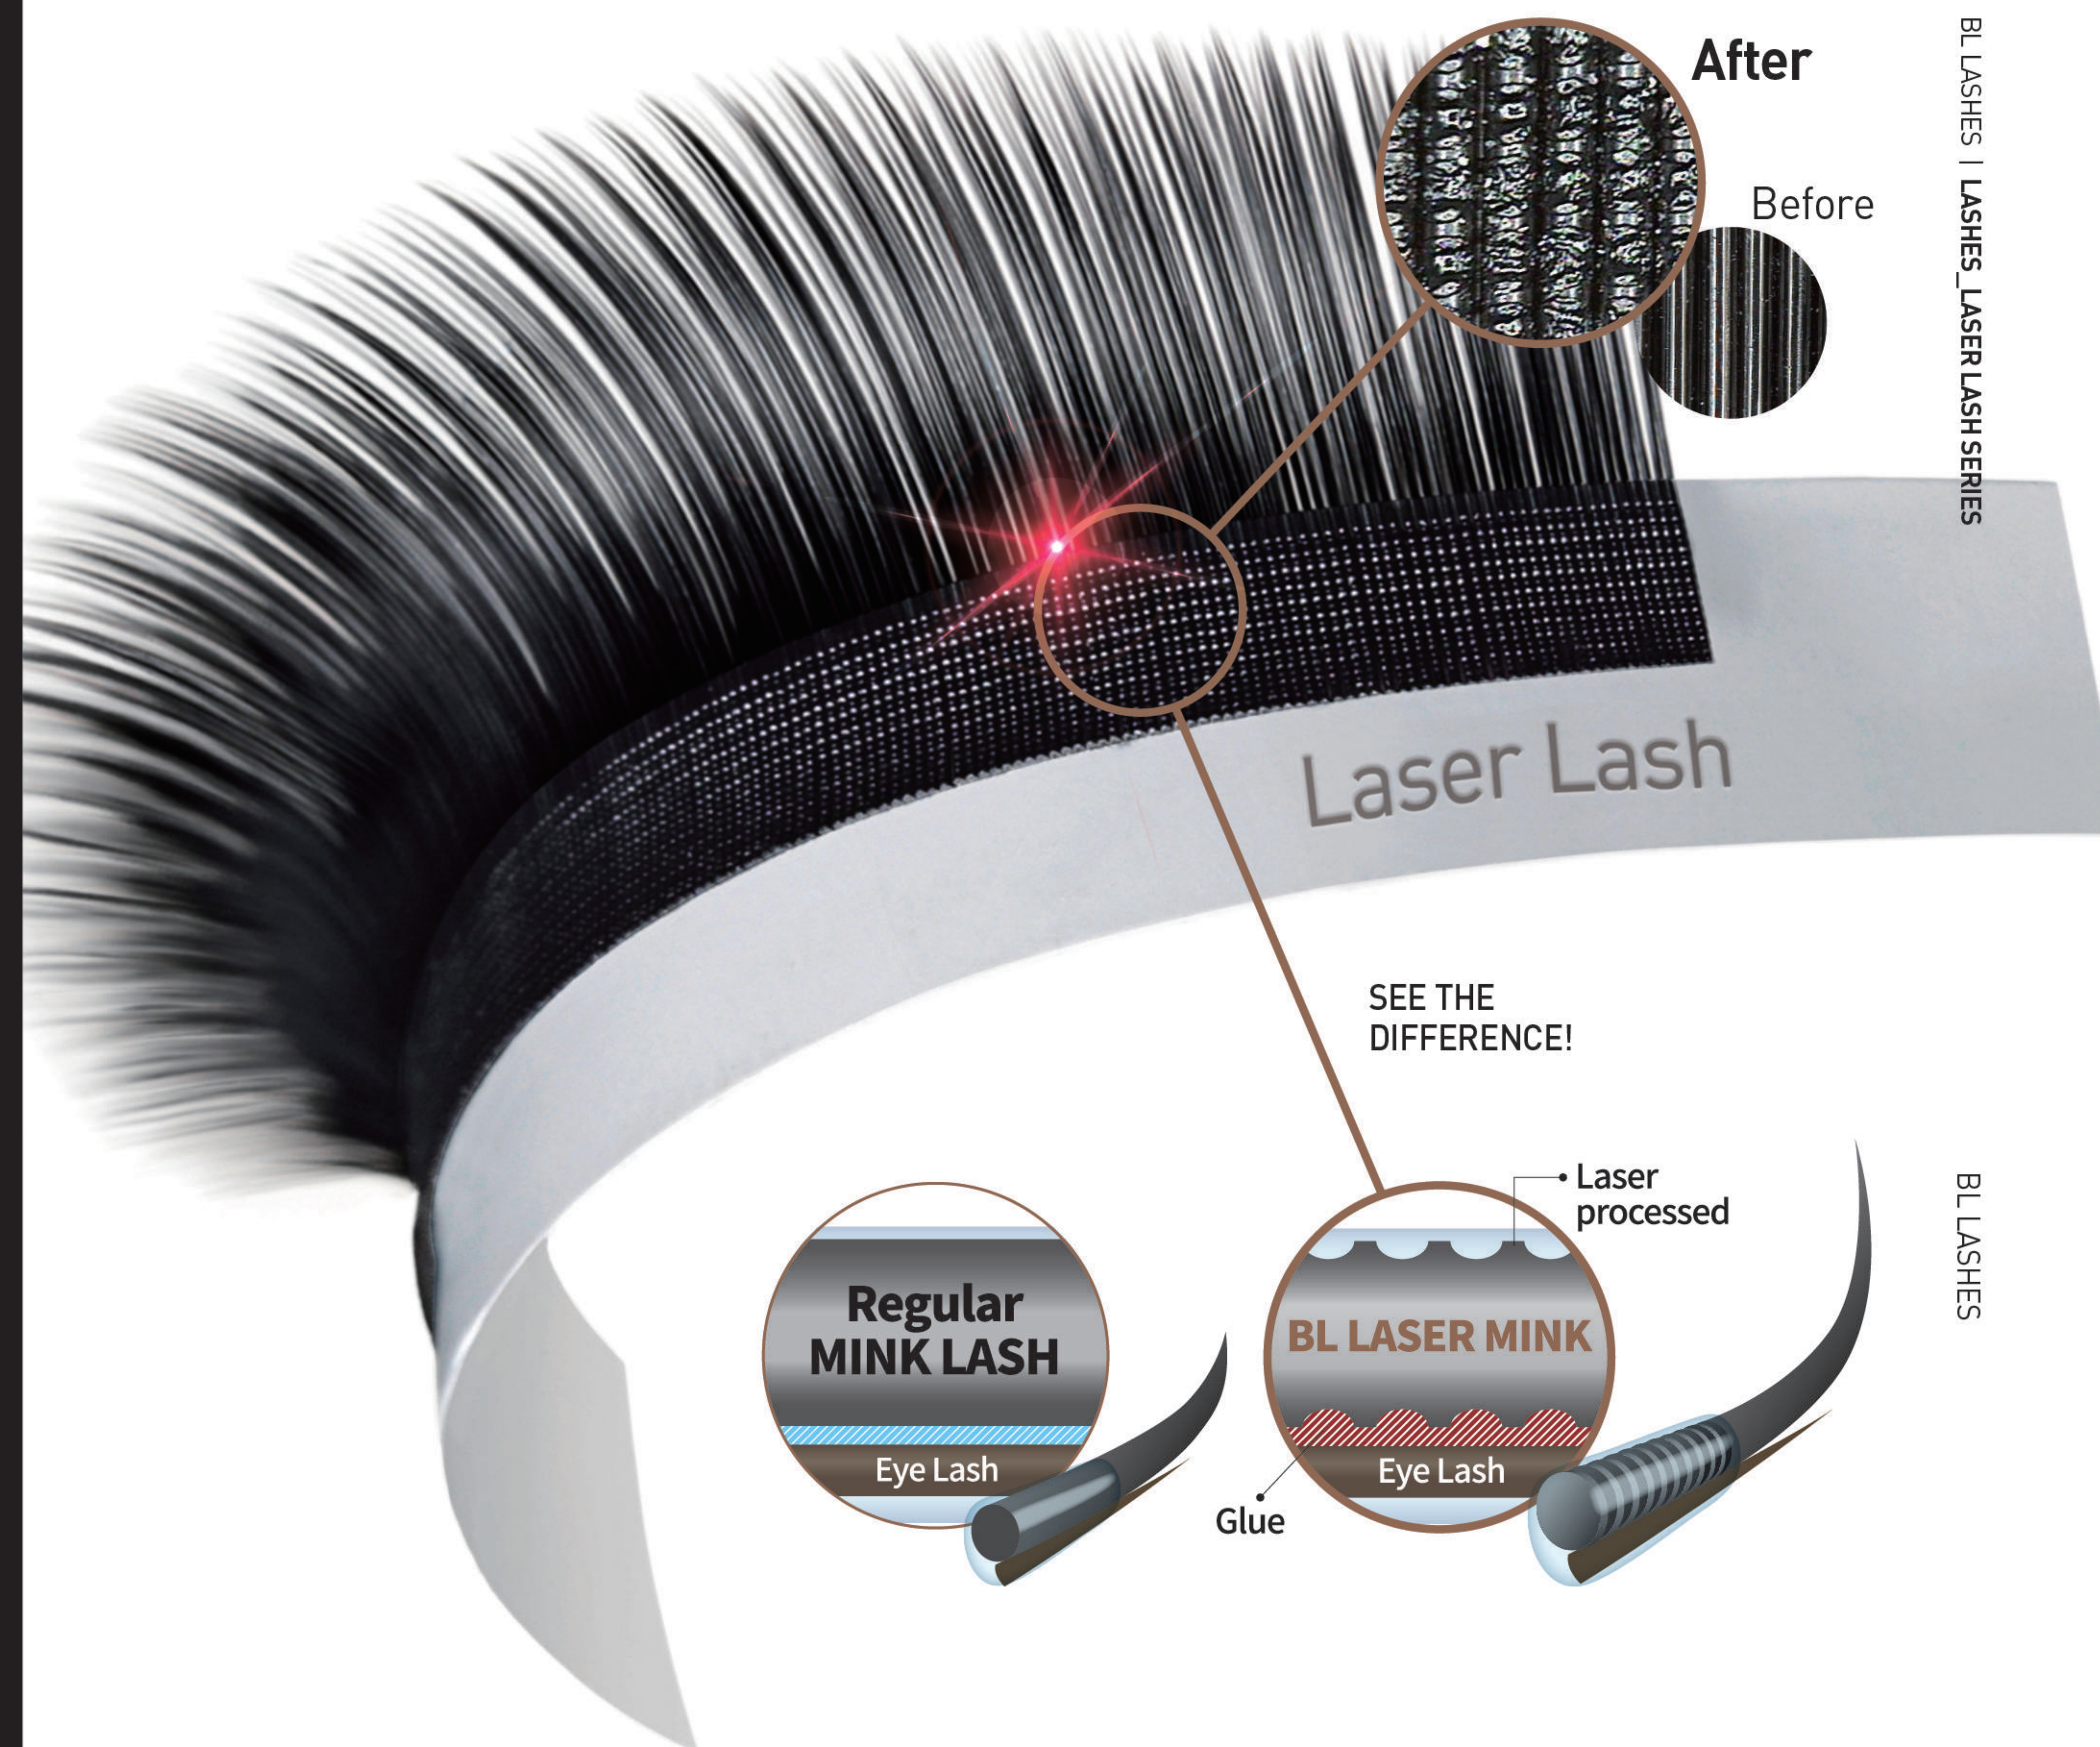

### Why Laser?

Just like the friction between tires and the road stop cars from skidding, these microscopic laser-processed indentations in the BL Laser lashes create an instant bond between extension and natural lashes.

Therefore, they prevent extension lashes from sliding off from natural lashes. As a result, BL Laser lashes deliver much faster and easier extension experience to lash artists.

**25%** Longer  
Lasting

The concave surface on BL Laser lashes provide more bonding areas which let the extension last 25% longer than the normal extension.

## LASER LASH VARIETY

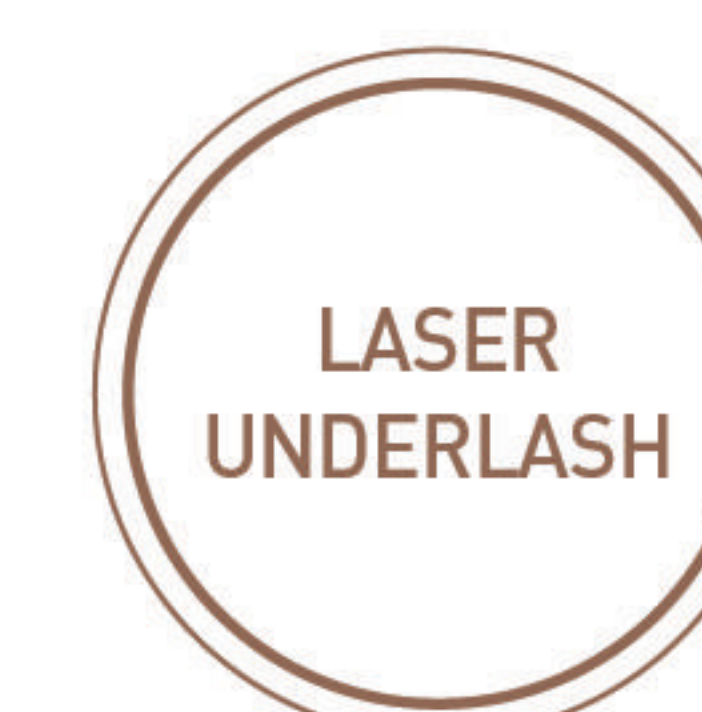

- + Curled and tapered to perfection
- + Versatile designs possible

- + More tapered area than Mink lashes
- + Full and natural look

- + More surface area for adhesion
- + Easier and faster extension

- + Complement the look of top lashes
- + Doll-like, dramatic effect

- + Use as an accent color
- + Create a captivating look with a full set

# LASER MINK LASH

These individual synthetic mink lashes are high gloss, curled and tapered to perfection, and versatile at the same time.

Give your clients various selection of looks from natural to dramatic.

- + High gloss
- + Curled and tapered to perfection
- + Wide variety of curls and thicknesses available

The world's first laser-processed extension that has been made for 25% longer lasting retention time

Individual strips are labelled with their curls, thicknesses, and lengths

BEST-SELLING CURLS

	0.20	8, 9, 10, 11, 12, 13, Mix(7~14)

12 lines. Made of Korean PBT

# LASER SILK+ LASH

Like mink lashes, silk+ lashes are made of PBT as well. However, there are some main differences between the two and they are as follow; their shapes, finishes, and weights. BL Silk+ Lashes are thinner at the tip and get thicker towards to the bottom. This shape helps eyelashes look fuller, yet more natural.

- + More tapered area than Mink lashes
- + Full and natural look

Curl	Thickness	Length (mm)
J / B / C / D	0.10	8, 9, 10, 11, 12, 13, 14, 15, Mix(7~14)

## EXPERT'S PICKS FOR BROW EXTENSION

### B.BROW PRIMER

B.Brow Primer can be used to disinfect the natural eyebrows before applying the eyebrow extensions.

15ml

### B.BROW GLUE

B.Brow glue is specifically formulated for eyebrow extension. It is a safe and medical grade adhesive with low fume.

10g

### B.BROW REMOVER

Gel type remover for eyebrow extension removal. It effectively dissolves the glue and does not damage the natural brows.

15ml

Handmade volume technique allows lash artists to apply multiple extension lashes to one natural lash at a time. Also known as the "Russian Volume", this technique has been originated from Russia and has been spread across the world as many customers desire to have full and luminous eyelashes instead of having only long eyelashes. Handmade volume lashes are perfect for customers who have sparse lashes or bald spots, or who just want a more dramatic look, yet lightweight extension.

TIPS  
FOR YOU

What is the main difference between “Feather” and “Doll-like” styles?

Easy Fanning Feather provides a natural, yet voluminous look. As each strip of Easy Fanning Feather contains lashes of varying lengths, it creates soft and natural-looking fans of multiple lengths. In comparison, a strip of Easy Fanning Doll-like contains lashes of single length, it creates a bold and show-stopping look with maximum fullness.

# PRE-MADE VOLUME EXTENSIONS

Since a full set of pre-made volume takes the same time as a set of classic lashes, pre-made fans are ideal for lash artists who want to speed up their volume extension application.

Our ultra-thin and extremely lightweight pre-fanned lashes are heat bonded at the bottom (no glue needed). As a result, it is possible to create dramatic fans without any additional weight.

“READY-to-LASH for your convenience”

# GLUES & REMOVERS

BL  
LASHES

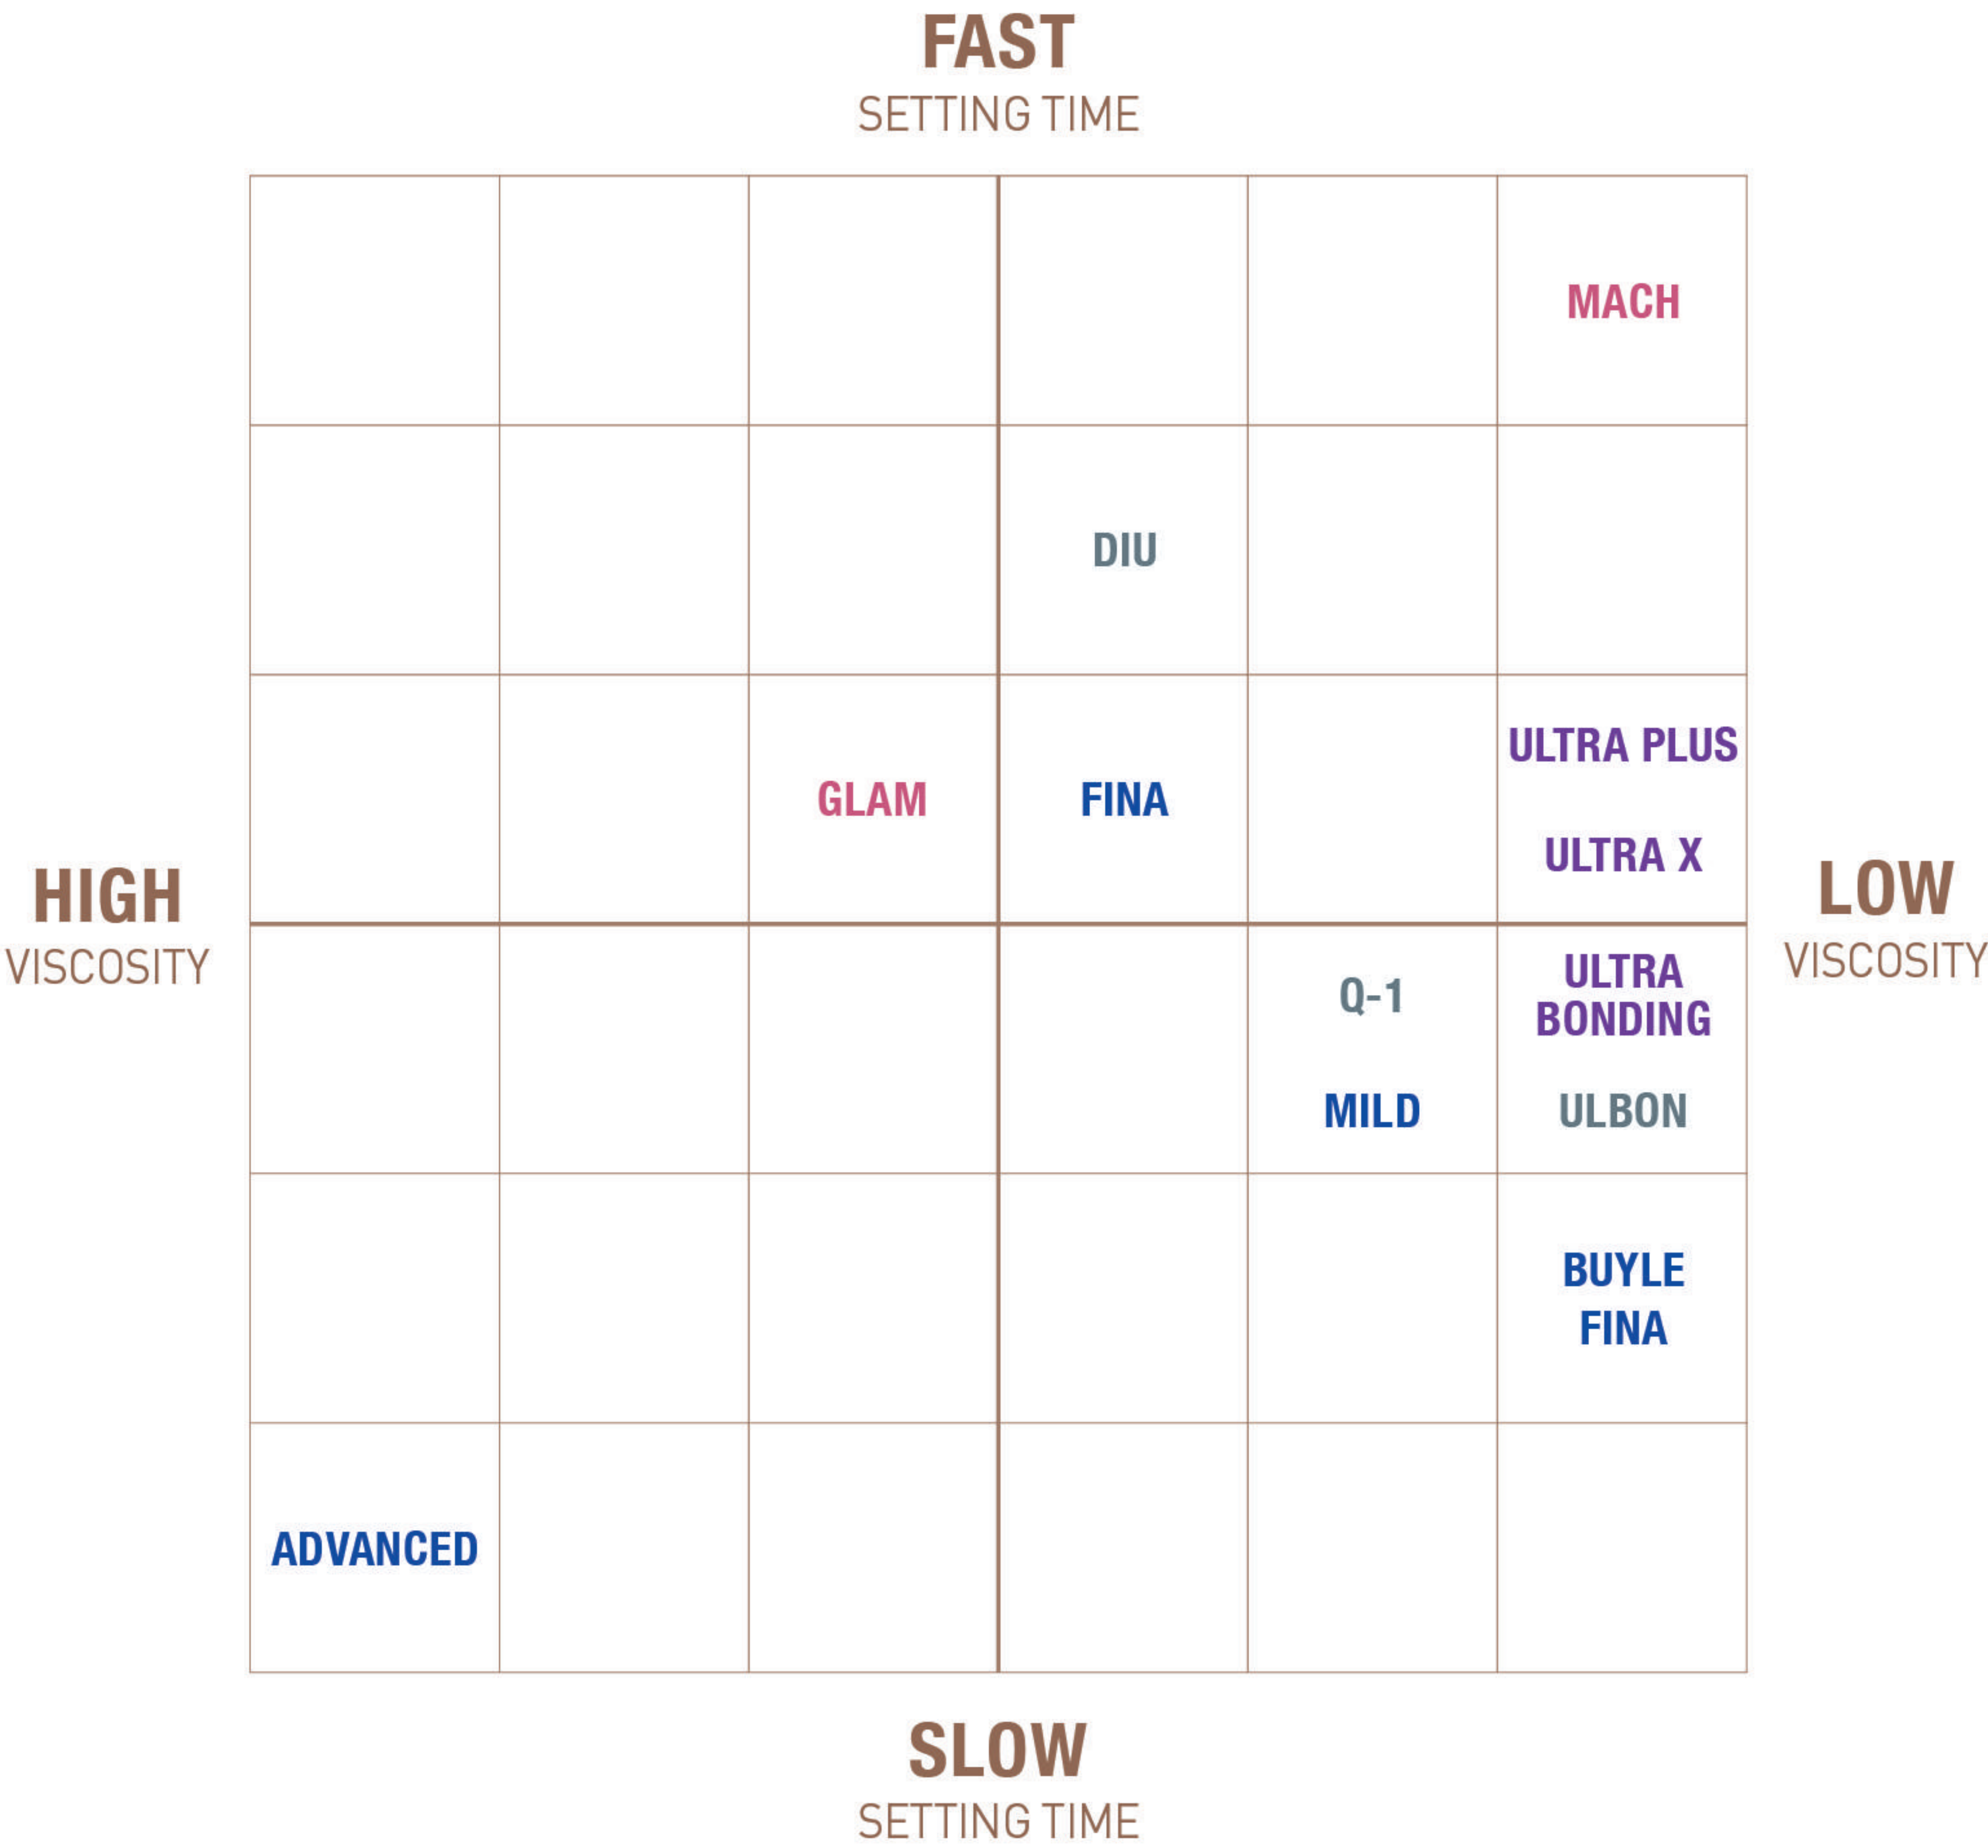

QUALITY FIRST  
GLUES

Choosing the right lash extension adhesive is one of the most important consideration when applying extension eyelashes. We are proud of our worldwide best-selling glues which hold a long track record of delivering better retention and higher customer satisfaction.

BL GLUE MAP

Category	Product Name	Characteristic
ULTRA series	ULTRA PLUS	BL's global best-selling extension glue with the fastest setting time in the Ultra series
	ULTRA X	The best adhesion and longest retention time in the Ultra series
	ULTRA BONDING	The least amount of odors and irritation in the Ultra series
Resistance series	ULBON	A low viscosity glue that is great for customers with oily skin
	Q-1	A popular glue that is resistant to environmental factors and has a long retention time
	DIU	A glue with very little odor and irritation including 2 seconds of drying time
Medical grade series	FINA	Not only including all the best and favorite advantages of Q-1 glue, but also it has reduced irritation
	BUTYLE FINA	Irritation occurrence rate is even lower with this version of Fina glue
	MILD	Suitable as a practice glue for beginner lash artists
	ADVANCED	Lowest levels of odors and irritation in BL glues
Handmade volume series	MACH	Fastest drying glue from BL with drying time of 1 second
	GLAM	A high-viscosity glue that is suitable for both Russian volume and classic extension

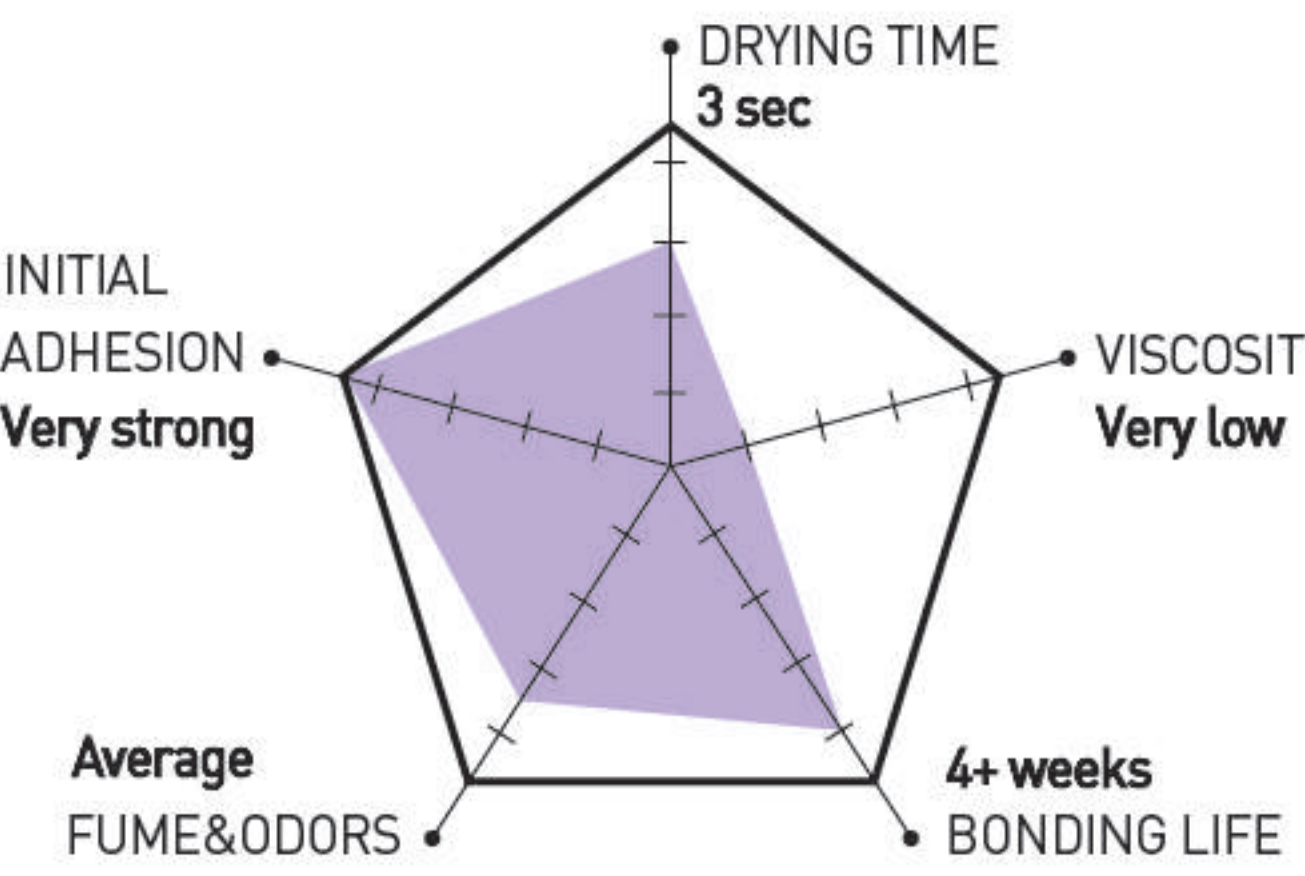

ULTRA SERIES

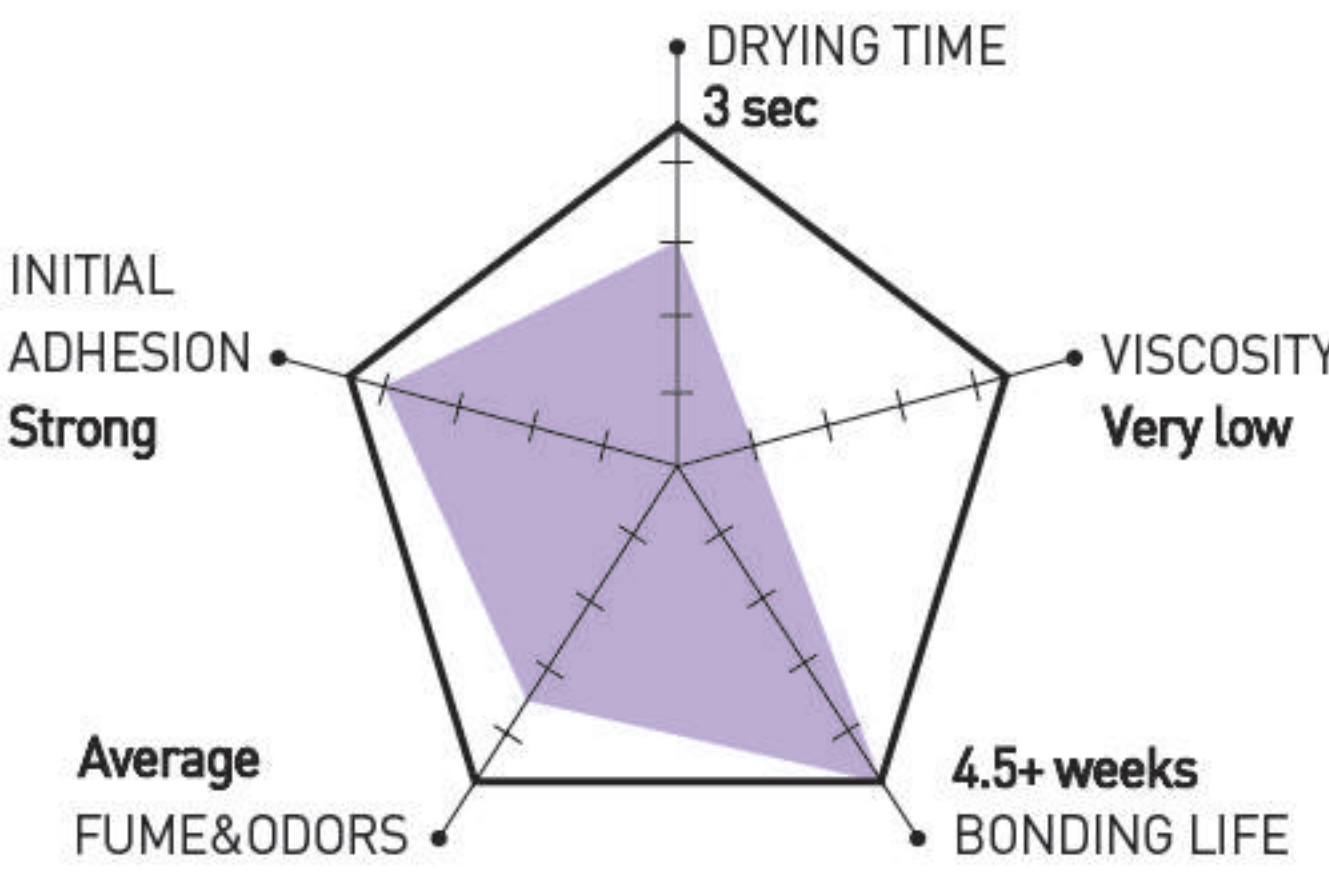

ULTRA PLUS (10g/5g)

Extension glue with the fastest setting time in the Ultra series which is 3 seconds. The lower-viscosity formula makes it less likely to get clumped with lashes making this glue the most suitable for dense natural lashes.

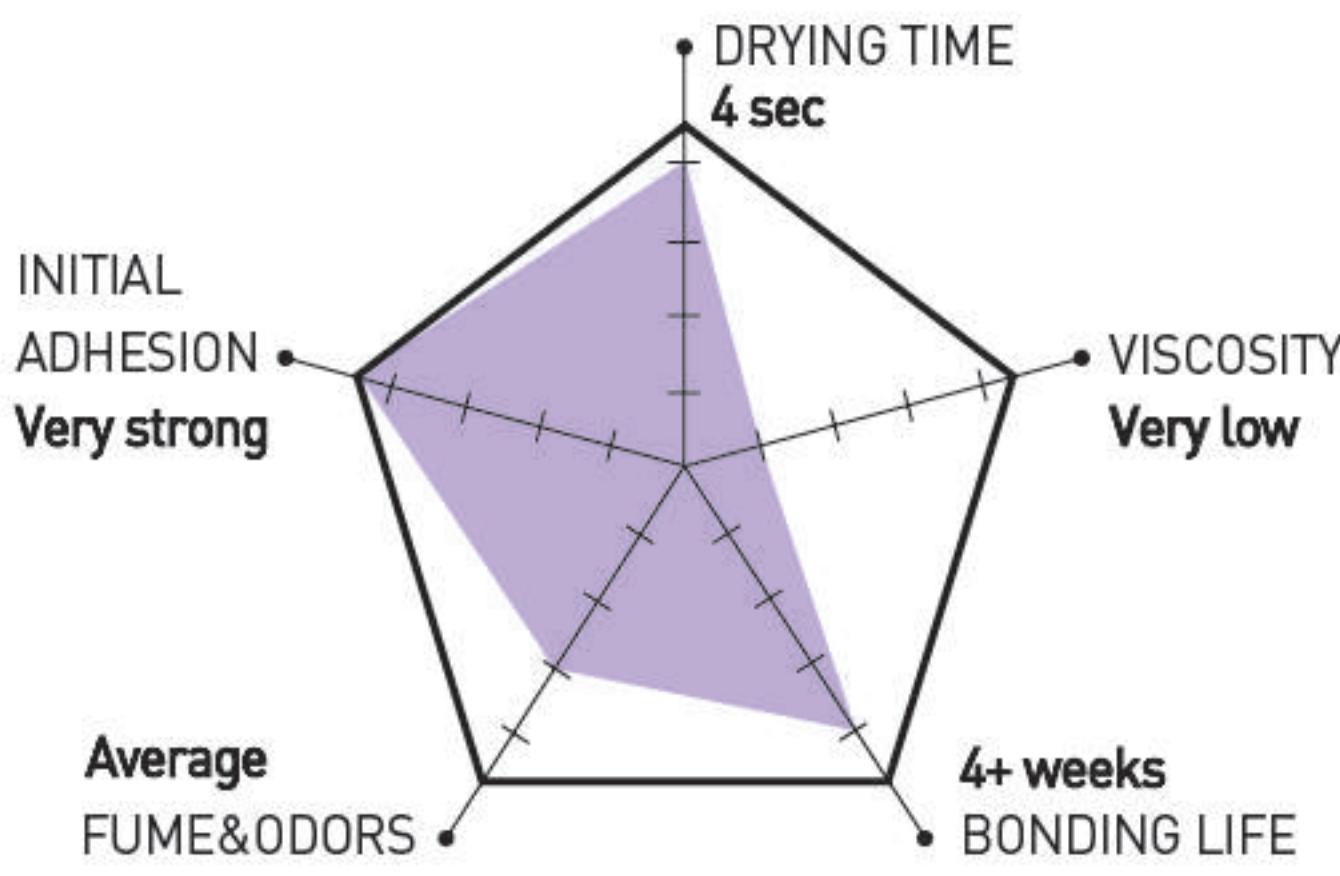

ULTRA X (10g/5g)

Extension glue with the best adhesion and longest retention time in the Ultra series. Has fast drying time of 3-4 seconds and reduced odors and irritation due to its formula that consists of medical-grade ingredients.

ULTRA BONDING (10g/5g)

Extension glue with the longest drying time in the Ultra series. As formulated with fewer amounts of ethyl-cyanoacrylate, it has the least amount of odors and irritation in the Ultra series.

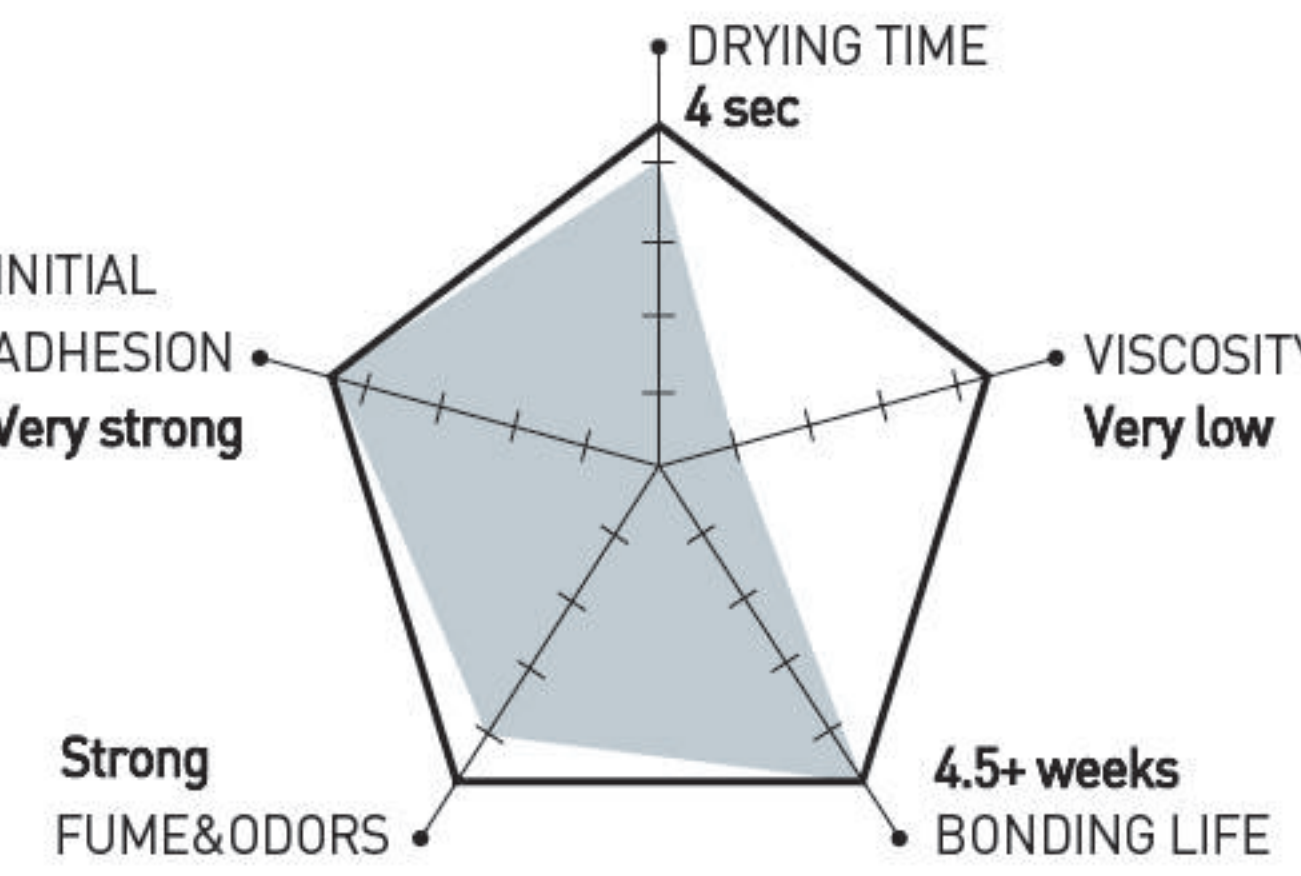

RESISTANTCE SERIES

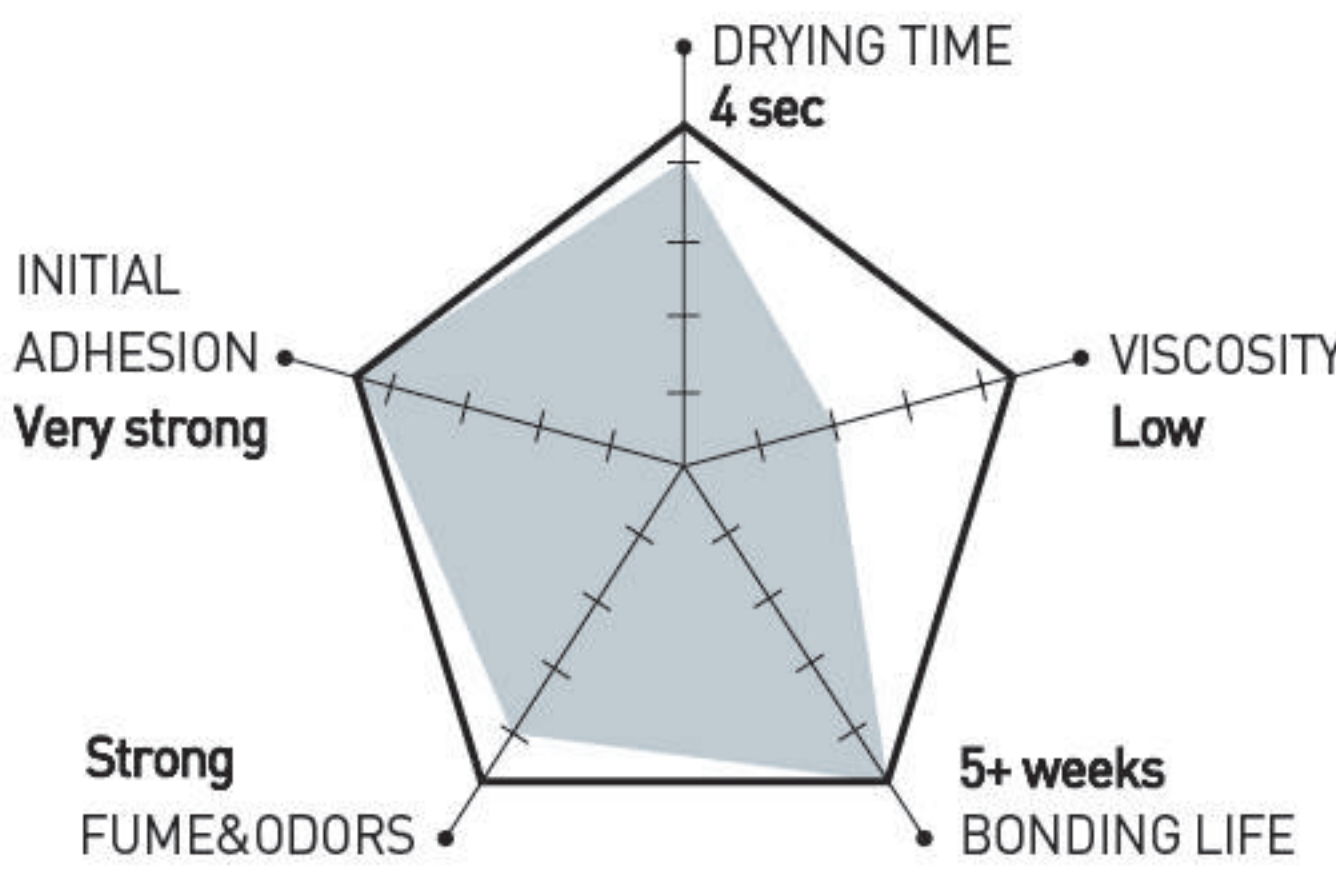

ULBON (10g/5g)

An adhesive that is great for customers with oily skin. The lower-viscosity formula makes it less likely to get clumped with lashes making this glue the most suitable for dense natural lashes.

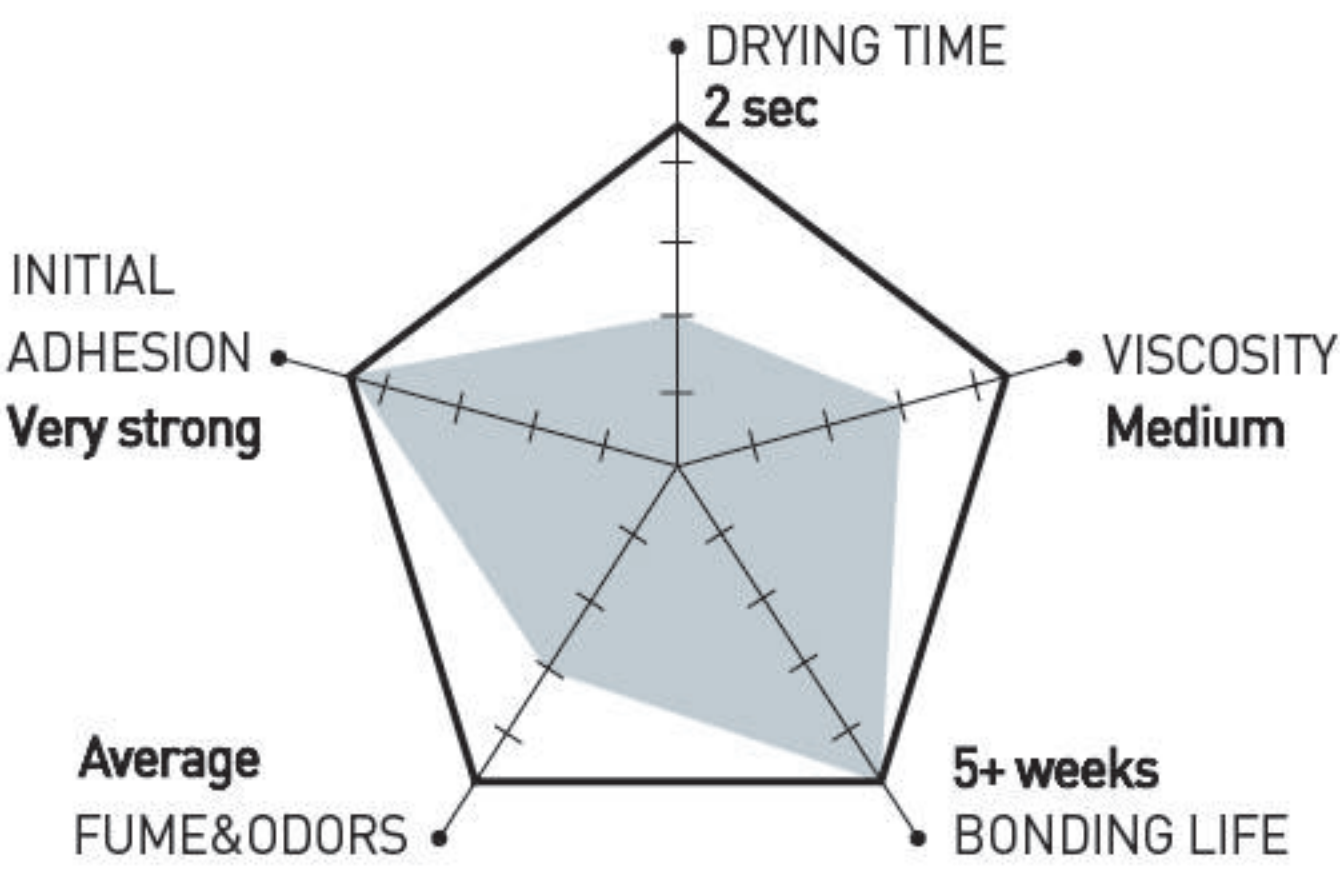

Q-1 (10g/5g)

A popular glue that boasts excellent elasticity as elastomers are included as an ingredient. It is resistant to wind gusts, dust, and other environmental factors. It also has a long retention time.

DIU (10g/5g)

With only 2 seconds of drying time, it has very little odor and irritation. Its viscosity helps increase adhesion and reduce sliding. Excellent retention time.

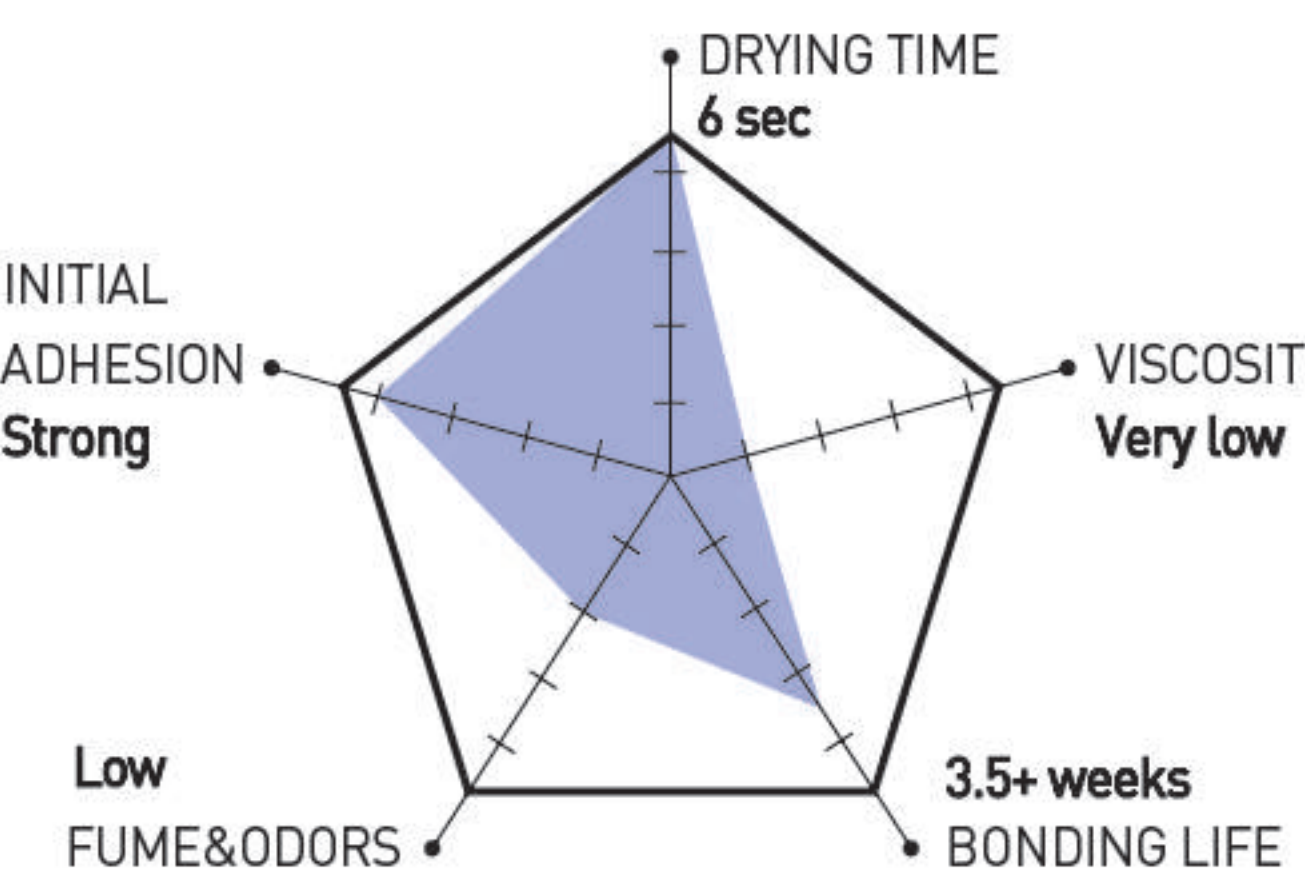

MEDICAL GRADE SERIES

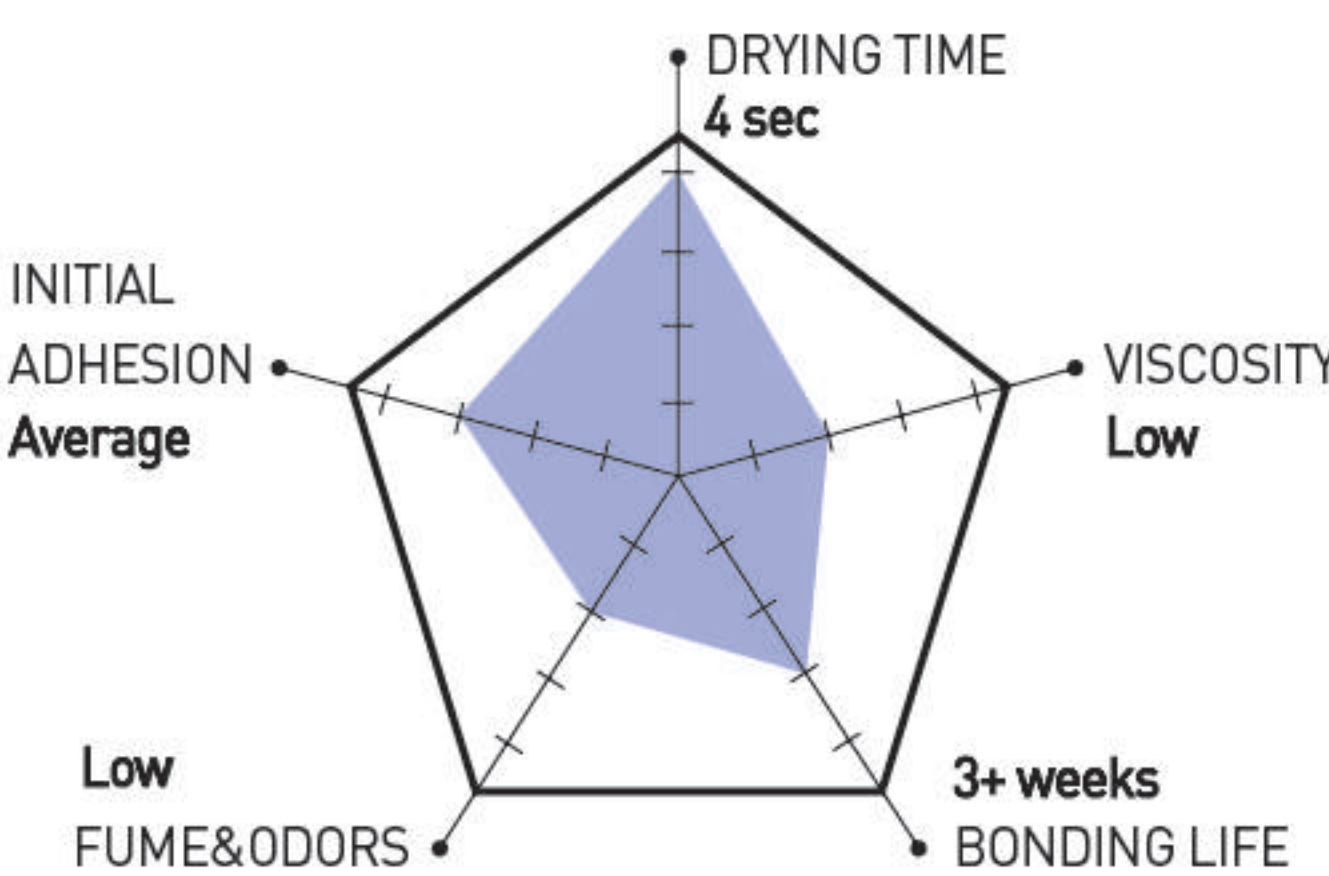

BUTYL FINA (10g/5g)

Irritation occurrence rate is even lower in this version of Fina as it contains butyl cyanoacrylate, which is usually used in medical glue.

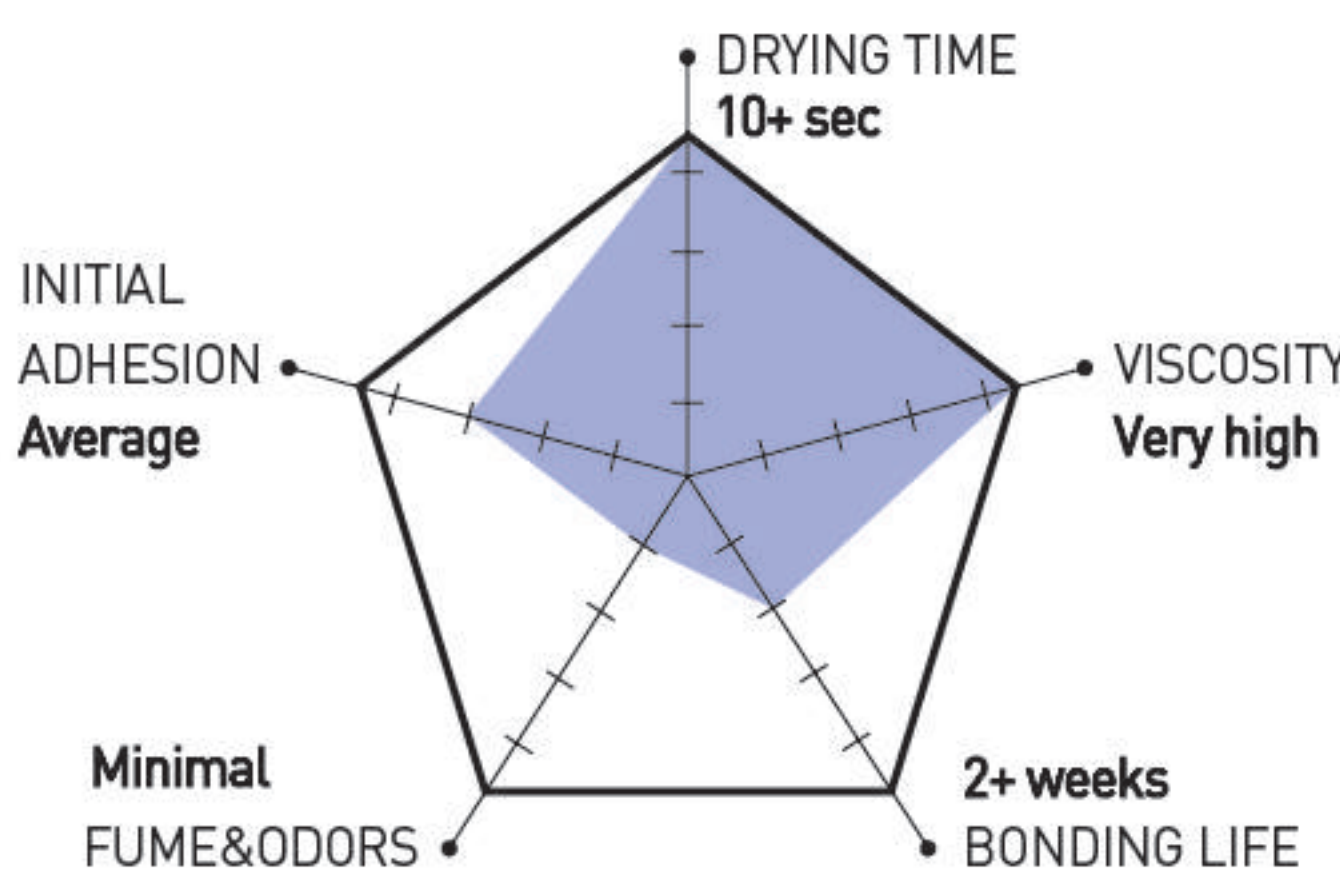

MILD (10g)

With 4-5 seconds of drying time, it is suitable as a practice glue for beginner lash artists. KC safety mark certified.

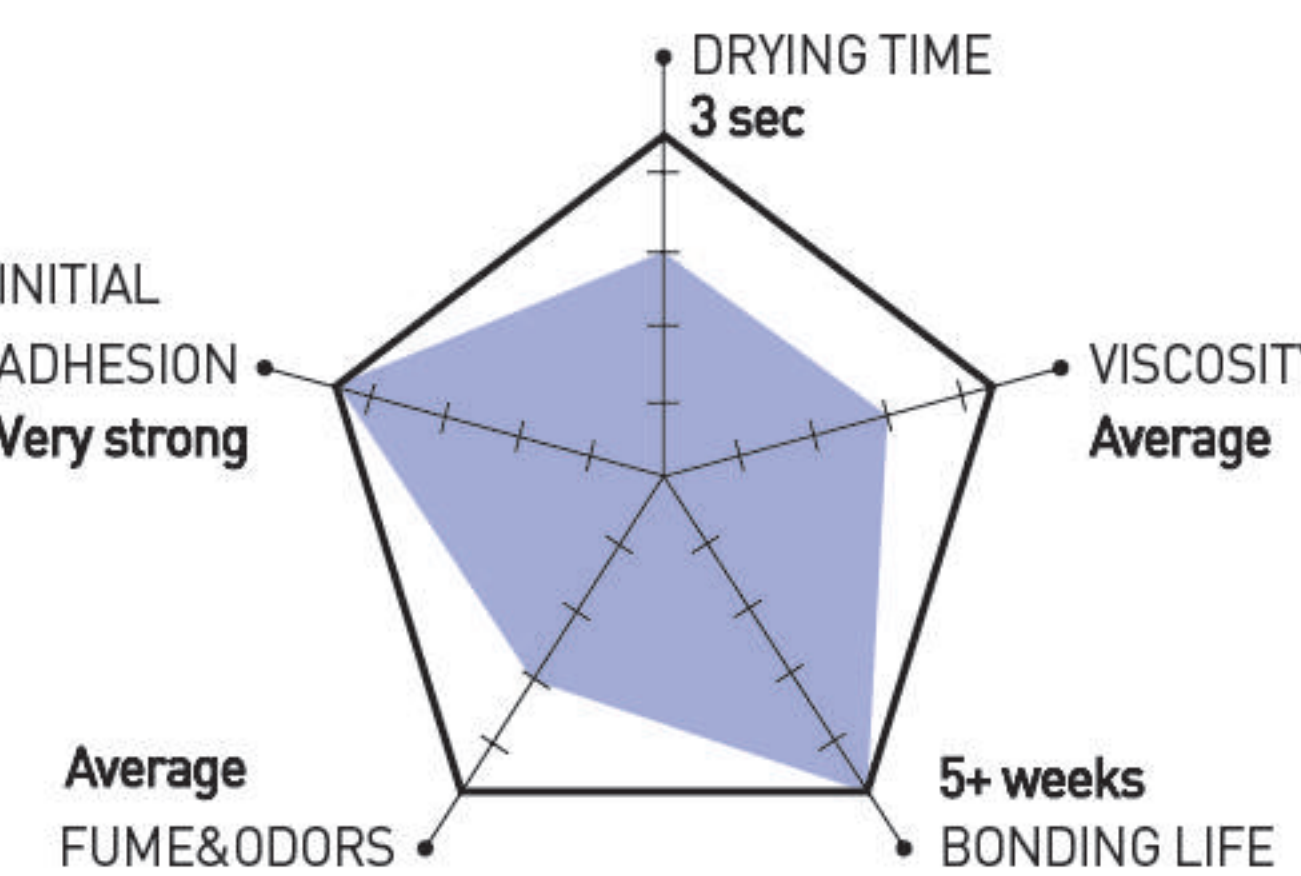

ADVANCED (10g/5g)

Lowest levels of odors and irritation in BL glues. Suitable for clients with acute sensitivity to extension glue. Very high in viscosity.

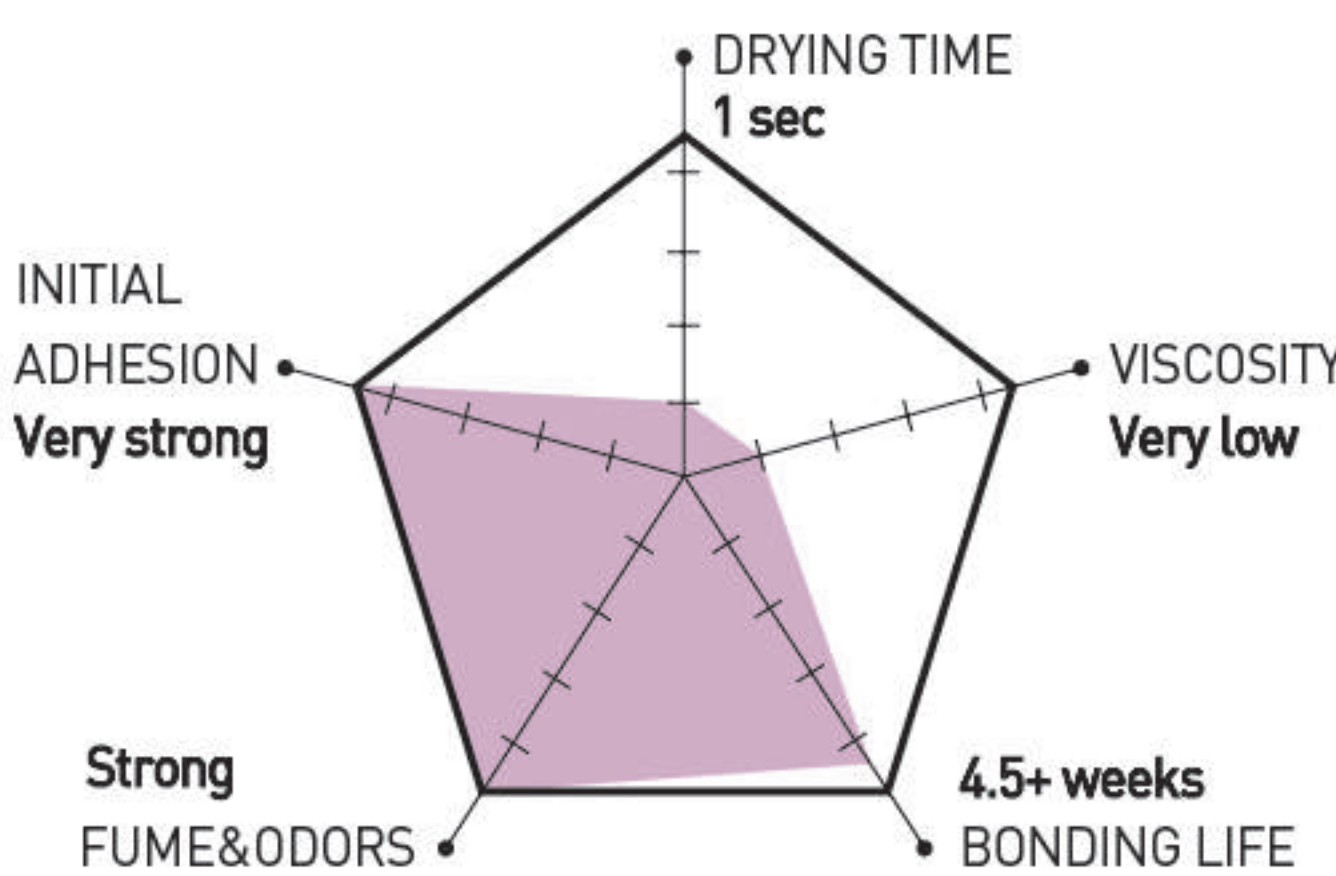

FINA (10g/5g)

Not only including all the best and favorite advantages of Q-1 glue, but also it has reduced irritation.

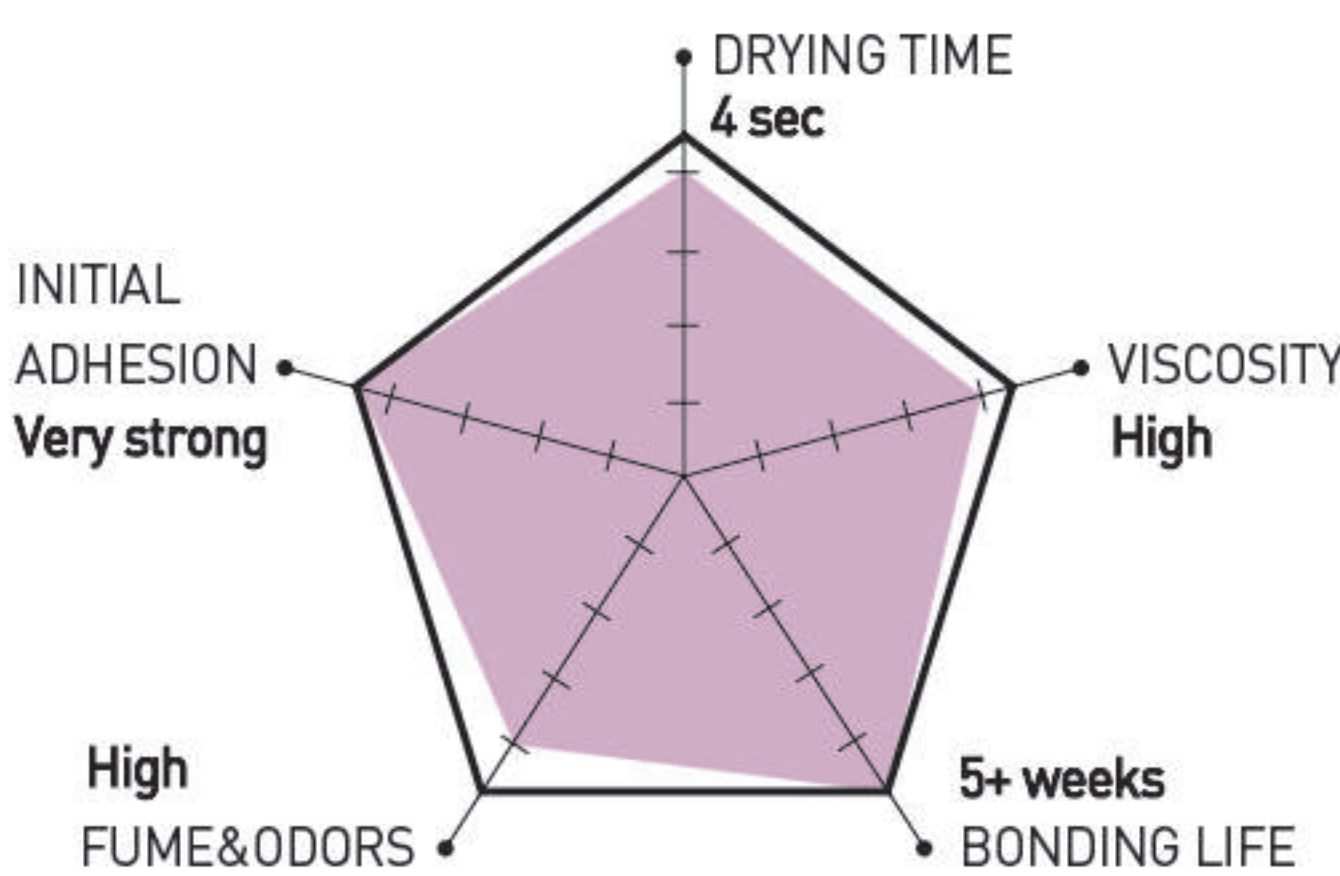

MACH (10g/5g)

Fastest drying glue of all BL glues with drying time of 1 second. As it holds the handmade fan in a single second, it is the perfect glue for advanced level Russian volume artists.

GLAM (10g/5g)

A high-viscosity glue that is suitable for Russian volume. 4 seconds of drying time allows enough time for beginner level volume artists to perfectly place the handmade fans.

HANDMADE VOLUME SERIES

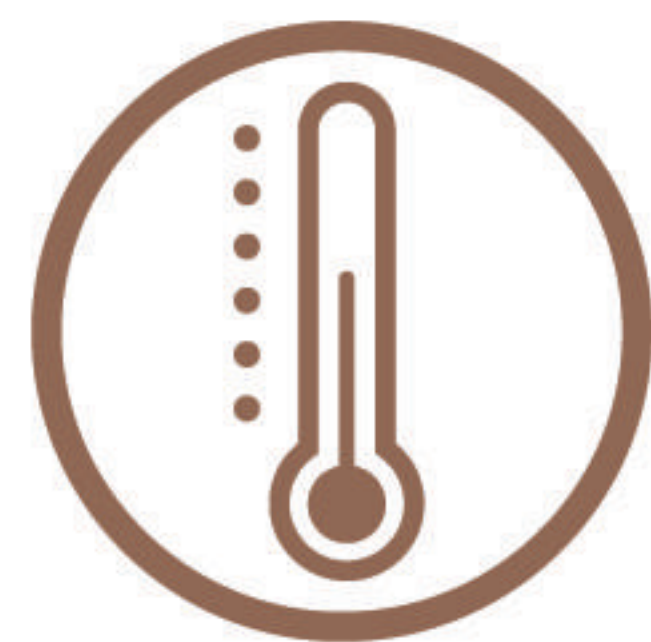

## All About Glue

Eyelids are the thinnest and most sensitive part of the human body. The most common complaints of having eyelash extensions are as follow; eyelids are itchy or swollen, lashes stuck each other and they cause pain, or eyes get bloodshot. The main culprit is the improper use of glue. Therefore, understanding how to use the glue is a responsibility of lash artists in order to reduce the occurrence of discomfort.

## Main Factors Affecting Glue Quality

Temperature, humidity, light, state of client's lashes, and hygienic condition are the most important factors affecting the quality of glue.

**Appropriate temperature**  
**22-26°C**

**If temperature is...**

**Too high :**

glue viscosity gets low,  
drying time gets shorter

**Too low :**

glue viscosity gets high,  
drying time gets longer

**Appropriate humidity**  
**45-60%**

**If humidity is...**

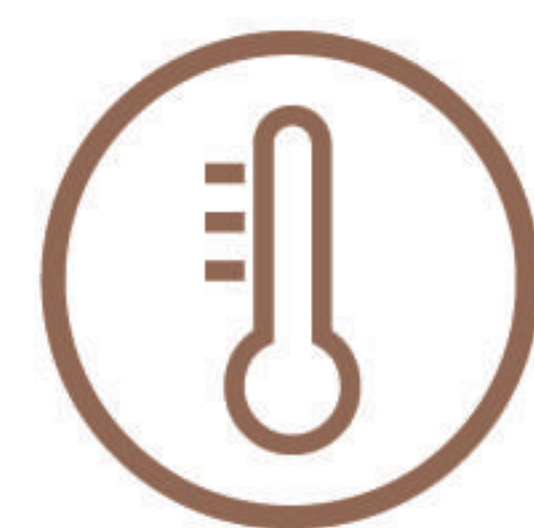

**Too high :**

Efflorescence occurs,  
drying time gets shorter

**Too low :**

drying time  
gets longer

## How to reduce troubles arising from improper glue use

### Use glue suitable for the situation

A lash artist should ideally have two or more kinds of glue at hand(e.g. fast drying, low irritation, and etc.) and should have a good understanding of the different features and properties of each glues prior to use.

### Follow the correct usage for the glue

Do not mix glues or move glue to another container from its own container. Place glue on a glue plate or glue plate film when using. Every 20 minutes, use a new droplet of glue in order to prevent its performance degradation.

### Follow the correct extension methods

Extension lashes should be applied about 1 mm away from the eyelid. Applying extension eyelashes too close to the eyelid increases the likelihood of getting glue on the eyelid which can cause itchiness, swelling, redness, and irritation.

### Sufficient consultation with the customer

Eyelash extension should not be performed if customers are not feeling their best. This is because there may be hypersensitive reaction to glue when they are not in a good state even if they usually are not allergic to it.

# QUALITY FIRST REMOVERS

BL Lashes offers a variety of extension glue removers that are specifically formulated to dissolve lash adhesives. Our removers quickly dissolve adhesives in the safest and easiest way. They are must-have items for extension lash artists.

## CREAM TYPE

BL Cream type remover is the safest type of extension remover as cream formula doesn't run down into eyes. Suitable for removing entire set of extension lashes. Shake well before use.

## GEL TYPE

The thick gel formula gently and quickly removes eyelash extension glues without harming natural eyelashes. Suitable for removing partial extension lashes. Shake well before use.

## LIQUID TYPE

This liquid type remover is mild to eyes. Shake well before use.

**Disclaimer :** Our extension lash removers are for trained and licensed professionals only.

Please only purchase if you have had the proper training in the technique to apply eyelash extensions.

Under no circumstance is the remover to be used on yourself.

# TWEEZERS

## PEONY PREMIUM TWEEZER

Meet BL Lashes' revolutionary new tweezer, Peony, designed and hand-crafted to perfection. BL Peony Tweezer will boost your fanning and placement techniques and increase your handmade volume extension speed.

Stainless Steel  
Handmade in Japan

### HANDCRAFTED TO PERFECTION

No more wasting time on tweezers that don't work well! Meet BL Lashes' revolutionary new tweezer, BL PEONY. This tweezer is designed and handcrafted to perfection. BL PEONY Tweezer will boost your fanning and placement techniques. Furthermore, it will increase your handmade volume extension speed as well.

Size : 100mm / 3.9"  
Weight : 12.75g

#### PERFECT GRIP ON LASHES

Perfectly angled foot paddles clamp tightly and allow you to grab up to 20 lashes at a time without fail.

#### PERFECT TOOL FOR FAN CREATION

A wide surface area of the foot paddle makes Peony tweezer to be the perfect tool for fan creation. (BL PEONY tweezer can make both narrow and wide fans.)

# PREP-CARE & TOOLS

BL  
LASHES

## PREP-CARE

### EXTENSION BASE

15ml

Just like human lashes have natural oil, extension lashes also come with some grease on their surface. BL Extension Base is a primer specifically formulated to remove the grease on extension lashes. With BL Extension Base, experience the maximum effect of the eyelash extension.

- + Effectively prepare extension lashes by removing the grease on extension lashes and prolong the bonding life of the extension.
- + Extension lashes without the grease are less slippery, and as a result, it facilitates faster extension application.

▶ **SCAN THIS QR CODE TO WATCH  
"HOW TO USE EXTENSION BASE" VIDEO**

#### Cautions

Start the extension procedure after drying Extension Base completely (takes about 1~2mins). Applying the wet extension lashes may cause the efflorescence. BL Extension Base is highly volatile. Therefore, close the cap tightly after use and store it away from the glue. DO NOT apply Extension Base directly on human lashes.

### ANTI-ALLERGY GEL

80g

BL Anti-allergy gel absorbs and eliminates airborne chemicals from extension glues greatly reducing the level of fumes & vapors in your area. With BL Anti-allergy gel protect both technician and client from inhaling fumes and being exposed to allergens.

How To Use : Simply place the open container near to the adhesive and leave it open during application. Replace this product when it dries (approximately every 2-4 months). Recommended to use one jar for one lash station.

### LASH PRIMER

150ml

Lash Primer provides an optimal pH on the surface of natural eyelashes as well as it removes oil and makeup residue on them. These features make Lash Primer to be an ideal foundation for fast attachment and strong adhesion. Use prior to every eyelash extensions.

- + Removes residual oil and optimizes natural eyelashes' pH to promote fast attachment.
- + Promotes better and longer adhesion.
- + Recommended to use BL Lash foam prior to BL Lash primer.

TOOLS

**SILICONE WORK PAD**  
Cushioned surface of Silicon Work Pad provides a perfect workspace for placing extension lashes or tweezers. (Large) 140x185mm / (Small) 55x105mm

**SILICONE PAD**  
Silicon Pad helps better lash arrangement and it picks up loose lashes with ease. 50 x 65mm

**LASH PAD**  
The pad comes in a plastic container which is suitable for storing loose lashes for later use. R 75mm

**LASH HOLDER**  
Lash Holder holds and organizes your lashes for faster and easier lash application. Two kinds of type lash holders are available. (Large) 74x150mm / (Small) 60x110mm

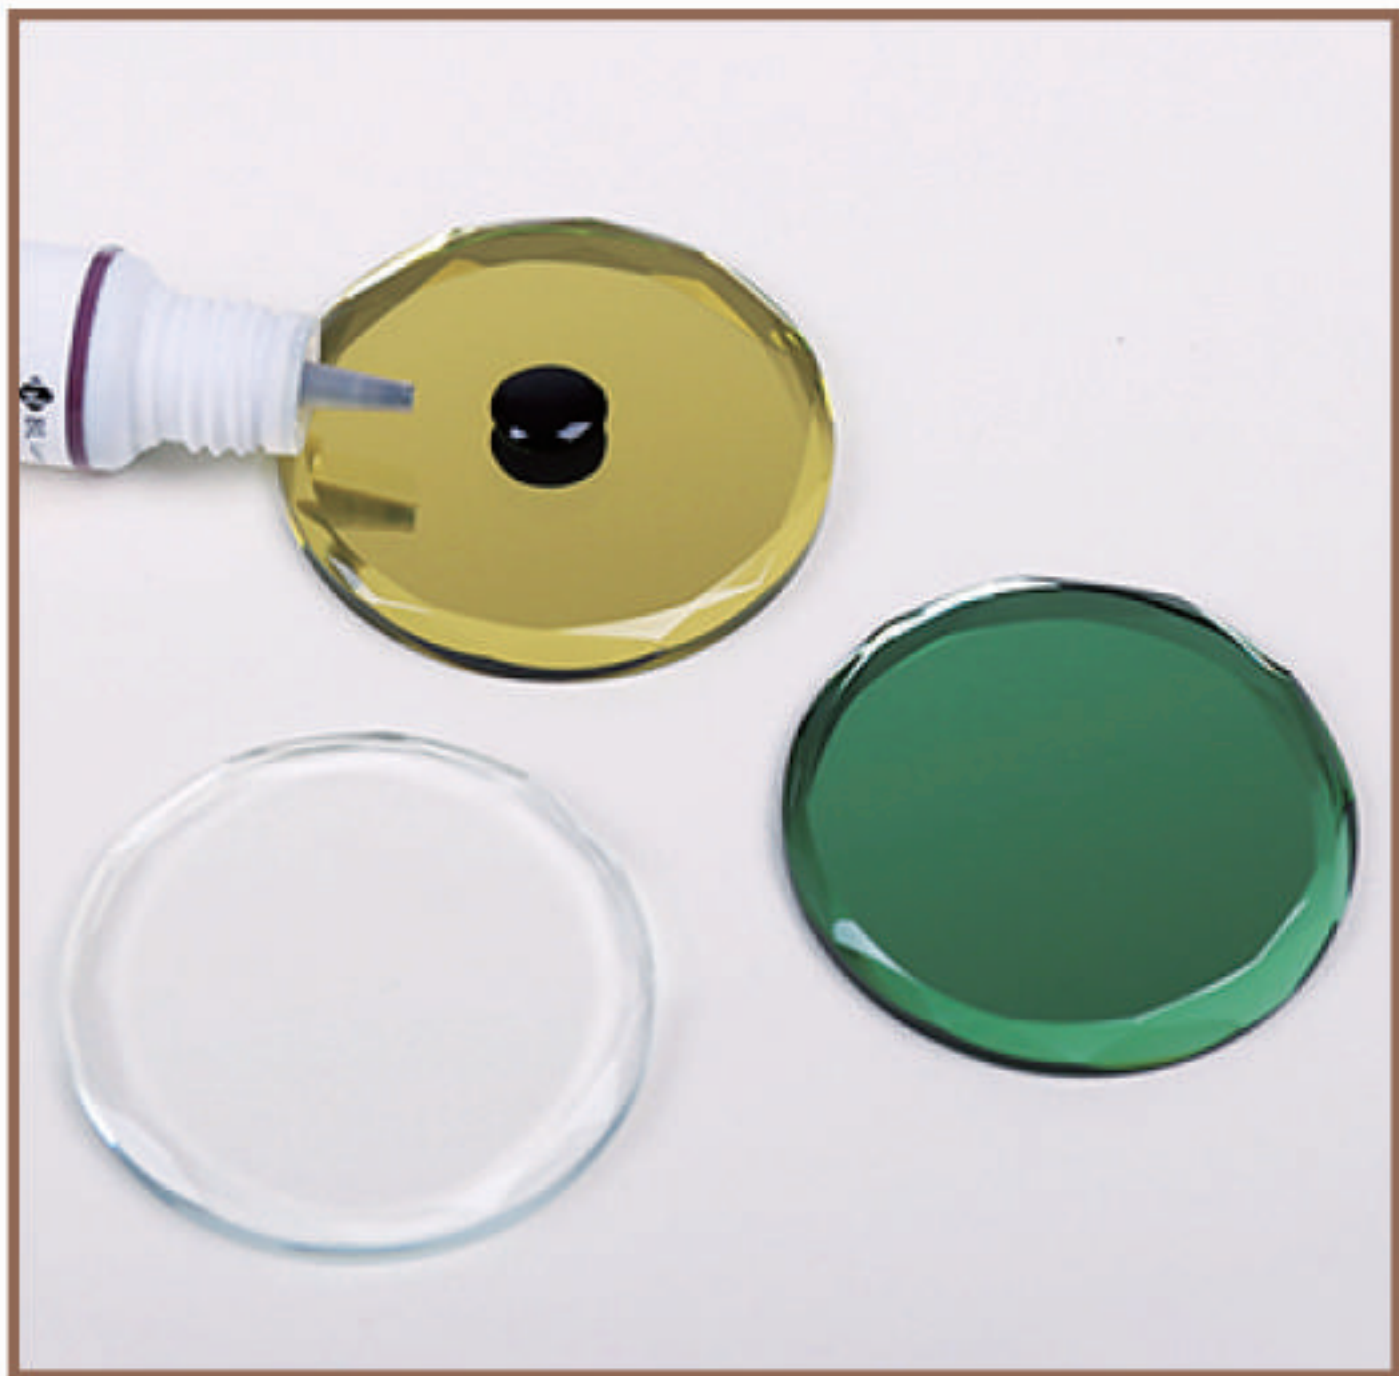

**HALF MOON LASH HOLDER**  
The curved shape of Half Moon Lash Holder automatically spreads out fans for eyelash extensions. 50 x 92 x 24mm

**RING LASH HOLDER**  
The curved surface of Ring Lash holder allows extension eyelashes to spread out for quick extraction. 27 x 46mm

**CRYSTAL GLUE PLATE**  
The cool, smooth surface of Crystal glue plate prevents rapid degradation in glue performance. R 75mm

**COLOR GLUE PLATE**  
Crystal glue prevents rapid degradation in glue performance. It comes with 3 different colors (Clear, Gold, Green). R 75mm

**JADE STONE**  
Jade Stone is used as a palette for eyelash extension glue to prevent rapid degradation in glue performance. R 75mm

**GLUE PLATE FILM (S/L)**  
A coated surface of BL Glue plate film is specifically designed to increase the duration of glue use. 30ea

**PLASTIC GLUE TRAY**  
This disposable plastic tray has five sections for holding glue, remover, and other liquid care products for the application. 43 x 43mm

**GLUE RING**  
BL Glue ring minimizes the hand movement during the application and speeds up application time. 15 x 15mm

**SURGICAL TAPE**  
Surgical grade tape which will not irritate skin during use. R 43mm

**3M PAPER TAPE**  
This latex-free paper tape is a gentle and hypoallergenic. It is safe to use in the delicate eye area. R 45mm

**3M PLASTIC TAPE**  
This micropore surgical tape is very gentle on skin and leaves minimal adhesive residue. R 50mm

**GLUE TAPE**  
A tape exclusively made for glue. It has been processed specially and therefore, glue can be used with this at its best. R 43mm

**LINT FREE APPLICATOR**  
This angled brush tip applicator will effectively clean lashes or apply primer and remover quickly and easily. 150ea / Black or White

**LINT FREE APPLICATOR (Refill)**  
You can replace the tip of lint-free applicator with this. It is environmentally effective and economically efficient. 150ea / White

## TOOLS

### MICRO SWAB

As this fine tip of Micro brush is much smaller than regular cotton swabs, it can be used for delicate application such as eyelash extension removal, prep-care, and after-care. (100ea)

### MASCARA BRUSH

This Mascara brush can maintain your client's lashes looking great between the extension appointments.

10ea

### CRYSTAL MASCARA BRUSH

As this luxurious crystal mascara brush has a cap to cover the brush, it can be stored and used hygienically.

Black or White

### COMB BRUSH

Comb brush is the perfect tool for brushing out lashes before and after the extension application.

(Large) Black, White / (Small) Black

### EXTENSION MIRROR

Enables sanitary and efficient eyelash extension by providing wide view in multi angles without having to lift the eyelids.

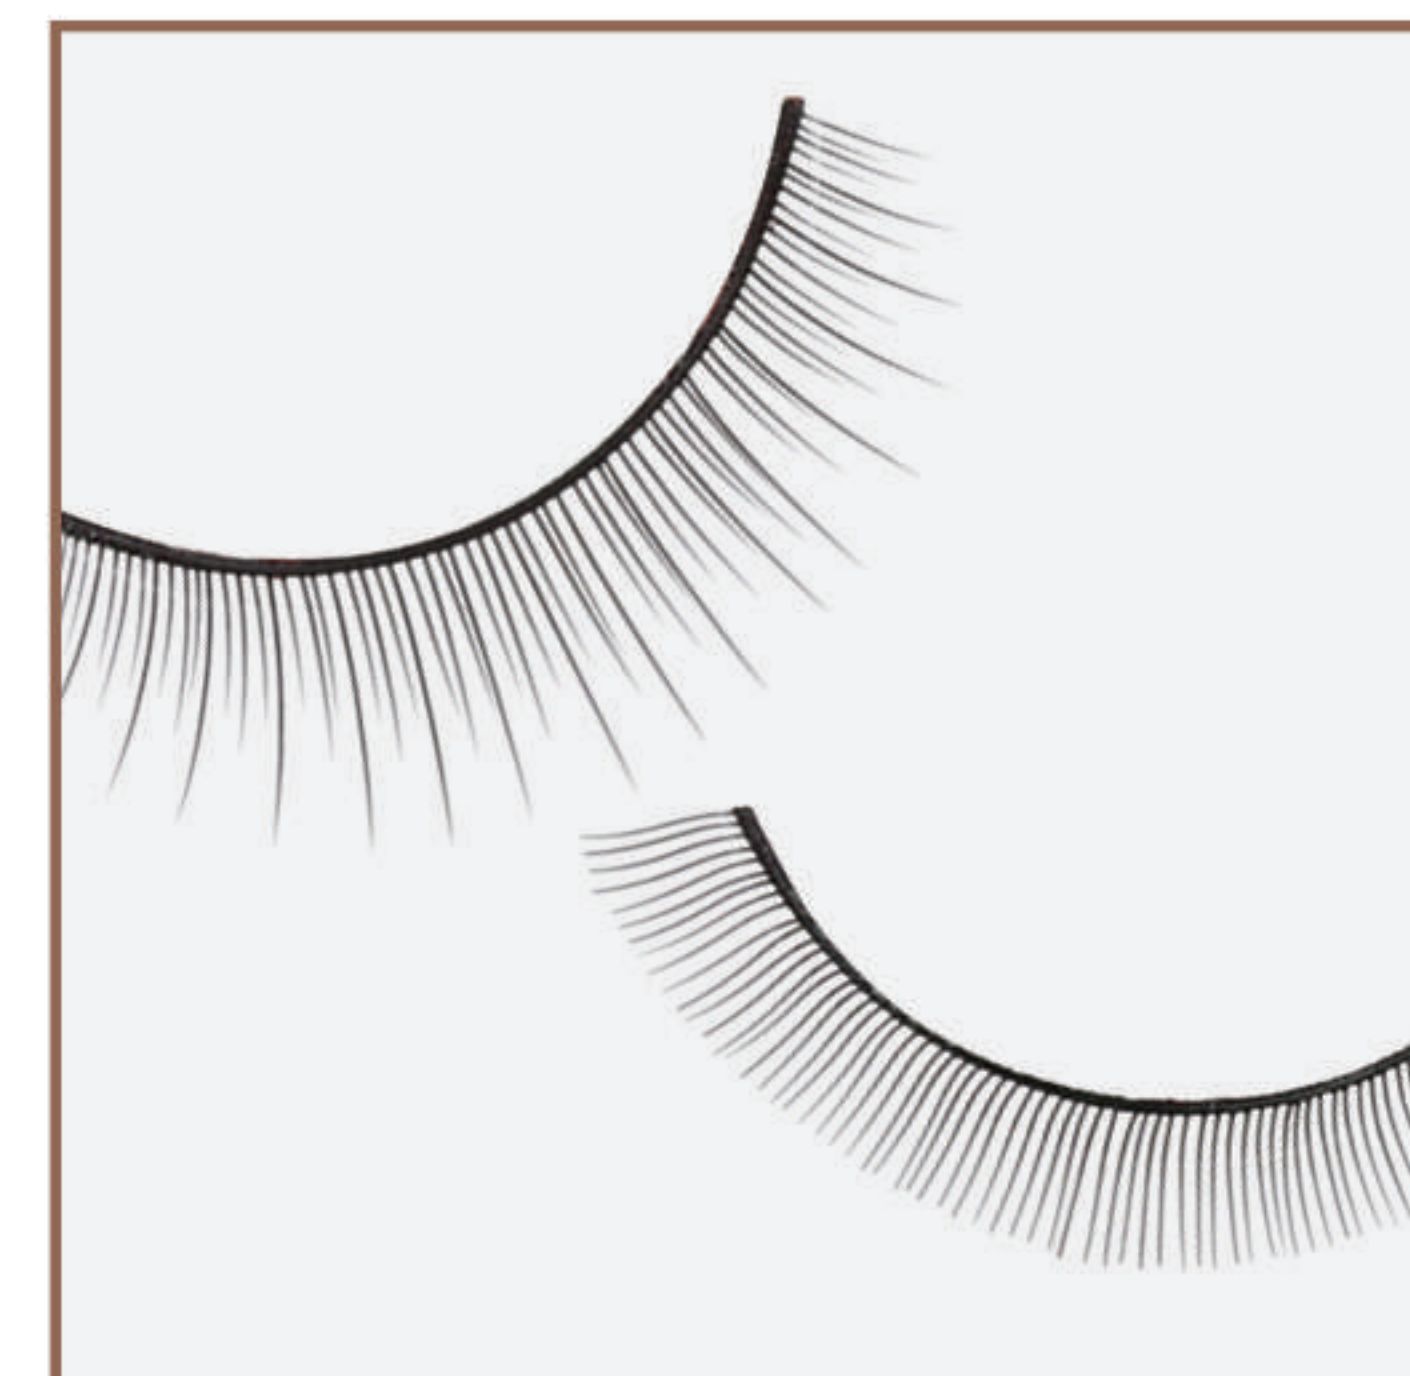

23 X 161mm

### SQUARE HAND MIRROR

BL square hand mirror is easy to carry and comes in 2 colors. It has reasonable size to see your beautiful lashes at once.

166 X 95mm / Black or White

### PLACTICE LASH (UN14/UN15)

Training lashes for eyelash extensions. It mimics natural eyelash's length, curl, and space.

1 pair/box

### SOFT PATCH

Soft Patch is ultra thin and stretchy and maintains its shape and strength throughout the application.

100ea

### MANNEQUIN HEAD & HEAD STAND

This life-size, soft-silicone mannequin head is designed to help practice your eyelash extension application skills.

135 x 254 mm

### LASER LASH 3D MODEL

This finely crafted model shows a structure of Laser Lash in three dimensional.

### FLAT LASH 3D MODEL

## TOOLS

### HEATED EYELASH CURLER

A Heated Eyelash Curler to curl lashes as if they were permed.

1 x AA Battery / Black or White

### NANO MIST

BL Nano mist quickly and effectively dries the eyelash extension adhesive. (Spray at least 30cm away from client's face)

36 x 113 x 28 mm

### AIR BLOWER

The air blower for eyelash extensions helps dry the eyelash extension adhesive faster.

(Large) Black, Pink / (Small) Blue, Pink

### SCISSORS

Specifically designed to trim Strip lashes, tapes, and eye patches.

42 X 93mm

### TWEEZER STERILIZER

Eradicates germs on extension tools and all sorts of household items.

110 or 220 volt electronics / White

### ACRYLIC TWEEZER STAND

BL Tweezer stand allows you to put tweezers hygienically and neatly.

# AFTERCARE & MAKE-UP

BL  
LASHES

## CLEANSING

### LASH FOAM

50ml / 100ml

This innovative solution is a perfect daily lash-care product as it gently cleanses and provides an optimal pH level for natural eyelashes.

- + Oil-free
- + Keep eyelashes clean

### EYE MAKE-UP REMOVER PADS

50 pads

Easily remove eye makeup with BL Eye Makeup Remover Pads. This gentle formula leaves delicate skin around your eyes feeling clean and refreshed and it is perfect for all skin types.

- + Oil-free
- + For all skin types

### LIP & EYE MAKE-UP REMOVER

100ml

Gentle, yet highly effective. This double formulated BL Lip & Eye Makeup Remover easily and instantly dissolves all traces of make-up on the sensitive eye & lip area without any irritation.

- + Oil-free
- + For all skin types

### CLEANSING WATER

115ml

BL Cleansing Water is surprisingly powerful, yet gentle on skin. It looks and feels just like regular water, but it removes makeup and tones skin with just a few light wiping.

- + Oil-free
- + For all skin types

## NOURISHING

### LINT-FREE EYE PATCH

### WINK ME EYE PATCH

5ea/box

Non-woven fabric

Laminated PE film

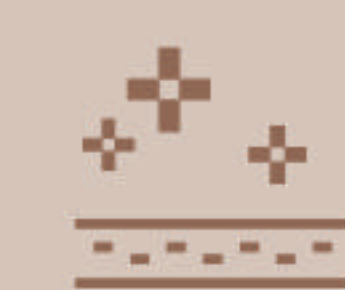

Formulated hydro-gel

Improve pigmentation

Younger looking skin

Brightening

Hydration

Plastic liner

BL's under eye masks help improve wrinkles, dark circles, and puffiness around the eyes. You'll notice the difference right away - a visibly smoother, brighter, and more youthful appearance. With regular use, it will last longer.

It is ideal to use during eyelash extension application as the shape of the gel pad contours perfectly to human eyes. It also provides a more soothing and relaxing experience than using a tape alone. Furthermore, innovative lint free coating prevents any lint from interfering with extension process.

# LASH ESSENCE

Infused with botanical ingredients such as bamboo and green tea extracts, this nutrient-rich formula moisturizes your natural lashes and helps them grow.

If your eyelashes are brittle because of frequent eyelash extensions, this will be the perfect solution for it.

This hydrating formula will condition lashes and make them look healthy and shiny.

BL Lash Essence works both as a primer before you put on mascara and as a lash conditioner on its own.

- + Moisturizes natural lashes
- + Lash conditioning effect
- + Helps weak, brittle lashes get restored

#### How To use :

**Apply daily**

**(in the morning or before sleep).**

**Can be used after lash extensions as well.**

**LASH ESSENCE**

10ml

**MD Advanced**

5.6ml

# MD ADVANCED LASH GROWTH SERUM

Within a period of 4 weeks, MD Advanced will give you longer, denser lashes you have always dreamed of. If you have short, sparse lashes, they will get lengthened as MD Advanced is highly enriched with polypeptides and carnosine. It also nourishes your lashes and make them look healthy and glossy.

- + Promotes rapid lash growth
- + Creates denser and longer lashes
- + See the miraculous results in 4 weeks

#### How To use :

**Apply daily (in the morning or before sleep) at the base of your follicles.**

## BL LASH COATING SEALANT

BL Coating Sealant has been a global bestseller for more than a decade. For customers who are not only hoping to have longer lasting eyelash extensions but to grow their lashes longer and faster, BL Coating Sealant is a perfect choice as it is newly upgraded with D-biotin to serve as a vitamin supplement for natural lashes.

- + Essential after care product exclusively formulated for eyelash extensions
- + Water washable / Safe for daily use
- + Available in two colors (Black /Clear) with two types of brushes (Mascara/Pen)

Mascara  
type

Pen

## MAKE-UP

## BL EYEABLE LIQUID LINER

BL Eyeable Liquid liner wears strong all day long. It features a precision brush tip that makes lining sharp, fast, and easy. This mistake-proof pen creates the perfect line – thick or thin – in one sweep.

- + Liquid eyeliner pen with brush tip
- + Fast & Easy
- + Deep black color
- + Simply remove with warm water

## BL EYEABLE MASCARA

This long-wearing mascara lasts up to 16 hours, yet can be removed easily with warm water thanks to the washable formula made with innovative thermal-sensitive technology.

- + Lifting and lengthening effects
- + Safe for contact lens wearers
- + Deep black hue
- + Simply remove with warm water

# BL NOIR MASCARA

Noir Mascara contains Thuja orientalis extract which holds up frail and brittle lashes to help them appear healthier and longer. The breakthrough lightweight smudge-proof formula creates beautiful and defined lashes. Waterproof and flake free mascara that stays on all day without smudging.

- + Lengthening, volumizing, curling effects
- + Waterproof, flake-free, oil-free
- + Intense black color
- + Perfect to use with eyelash extension
- + Well removed with BL Lip & Eye makeup remover

# BL NOIR EYELINER

A waterproof and oil-free liner that combines long-lasting wear with a non-smudge, non-flake precision line. It goes on effortlessly and is perfect after eyelash extension. Best if it is removed with BL Lip & Eye makeup remover.

- + Waterproof & Oil-free
- + Intense black color
- + Perfect to use with eyelash extension
- + Well removed with BL Lip & Eye makeup remover

## BL EYELINER

BL eyeliner is specifically designed for use with eyelash extension and won't be smeared by sweat and tears. It has very soft texture. This package contains exclusive sharpener as well.
