

GLUE

REMARKS

- 1. EXPIRY DATE** : The quality of glue depends on user's maintenance methods.
- (1) Before 1st opening : 180 Days
- (2) After 1st opening : 30 Days

TIPS

1. FOR MAXIMIZING BONDING LIFE

- (1) It is ideal the room of extension temperature at 20 °C-28 °C and 40%-70% humidity.**
- (2) Remove oils / dirt from the natural lash (using Blink Lash Primer) prior to eyelash extension application.
- (3) Select beginner, intermediate or expert glue based on the stylist's skill level.
- (4) Avoid moisture for 24hours after application (ex. Water, sweat, steam or tears)
- (5) Do not touch eyelash extensions after the application.
- (6) Do not use an oil based mascara after the eyelash extension.
- (7) Do not use oil based makeup or makeup remover after eyelash extensions.

2. FOR BETTER KEEPING

- (1) Once the glue is opened, it holds good only for about 1 month.
- (2) Store the glue in an upright position at a cool and dark place.
- (3) Moisture will break down the glue. Blink recommends storing glue in an area with lower humidity (>50%)
- (4) The nozzle of the glue should be cleaned off thoroughly after each use.
- (5) The glue should be stored in the zippered bag with the desiccant enclosed.

3. ADVICE TO USE GLUE

- (1) Shake glues over 20 times mix the contents horizontally.**
- (2) Squeeze a drop of glue on plate forming a right angle.
- (3) When storing glue in refrigerator, use it after being over 2 hours at room temperature.**
